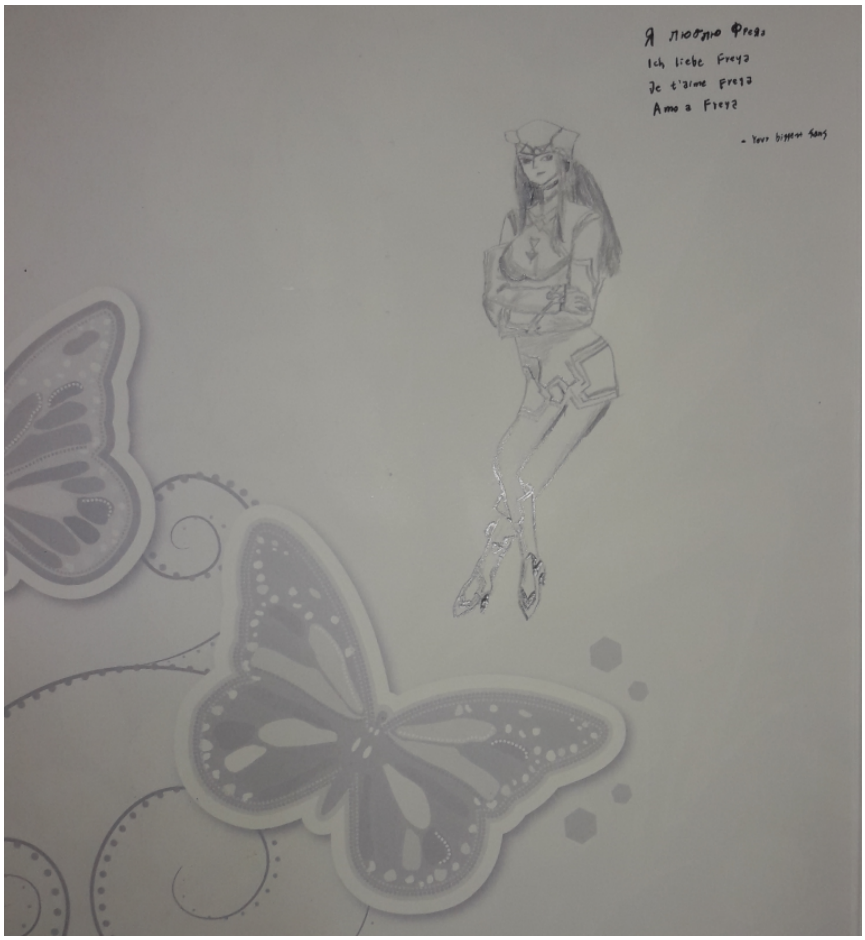
[1]A thank you or further information

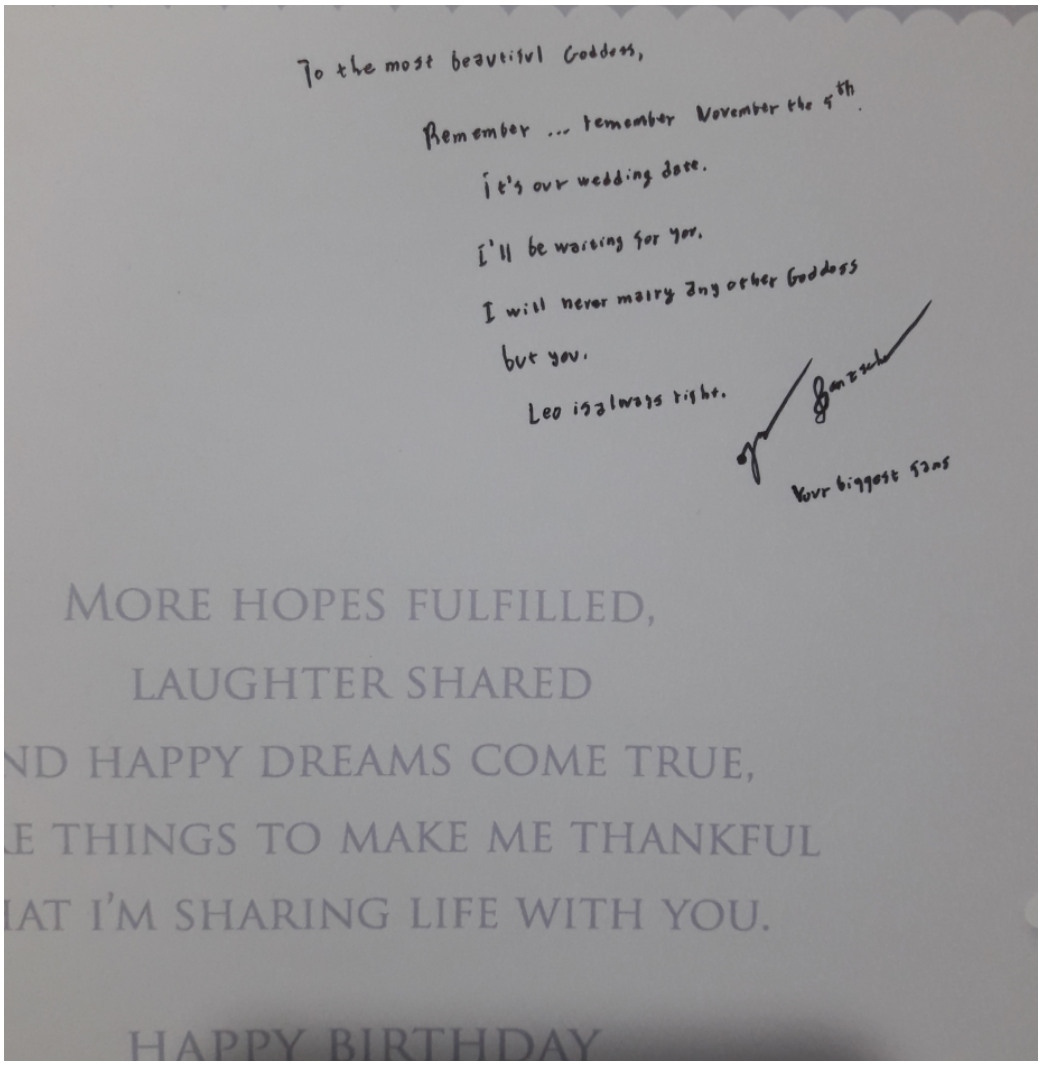
To be grateful, always humble and thankful to the one who is always helping me all this time, intangible, cannot be seen, I am a Catholic, but I also believe in Freya the Goddess and follow Buddha' way (the middle way), since everyone is unique, this is my way of life, my spirituality, it brings me to what I should become in the future, give me great happiness and joy. Freya, Je t'aime toujours. I asked for your help when I needed help, you have my marker Freya.

Figure 1: *On top of the mountain a heart shaped stone waiting for You, my eyes can't see, my body can't touch, but my heart knows it's You. Forever only You. -* ***DS Glanzsche to Freya***

Figure 2: *Graffiti I made in 2019 for Freya.*



Я люблю Фрея
Ich liebe Freyr
Je t'aime Freyr
Amo a Freyr



Something people need to know, that whoever you are, wherever you are, karma never has the wrong address. I prefer to just be open up and not hiding things. Every successful people have backing they try to hide but will be uncovered in the future. No big deal. Success just needs time and technique. Consequences. I read people who get in jail for luring children to his home then make that children a sex slave (Kidwelly sex cult), after years of enjoying being a pedophile, those people eventually get into jail, beaten up and his genitals might be kicked or stomped everyday by prisoners who have daughters they love (how did I know this? Big Twin Tree, a Nature in Valhalla Projection told me few weeks ago), so if it does not get you in this life, it will get you in the afterlife. That's a reason why great people are those who can control their sexual desire into productive energy and make breakthrough that are going to be used for decades, centuries or maybe thousands of years more. It is written in a book by Napoleon Hill "Think and Grow Rich" on transmuting energy of sexual desire to productive energy and be the most successful in any fields, but to realize it, needs actions not only talk. In the book Fountain of Youth it is also taught about transmuting energy to be superman / superwoman who will focus all the energy on what matter the most to be very successful, not like animals who still can't control their genitals.

Medal / Marker is given to someone we owe something to.
Sophia gives marker with her blood to John Wick.
One day Wick comes to Sophia asking for her help.
She is bound to help him, since she was helped in the past by Wick.

I gave markers with my blood to:
1. Lex Luthor
2. Toymaster
3. Gyro Gearloose
4. Jimmy Neutron
5. Batman
6. Iron Man
7. Mr Terrific
8. Ted Kord
9. The Brain
10. Leonardo Da Vinci
11. Albert Einstein
12. Thomas Edison
13. Mozart
14. Beethoven
15. Isaac Newton
16. Gladstone Gander
17. Uncle Scrooge
18. Thanos
19. Alexander the Great
20. Carl Friedrich Gauss
Consequences...

It was recorded not only by human ways. But by the divine. Karma.
There are 12 seats at the high table.
Every markers must be honored.

I am member of a family and have a crest with Berlin from Valhalla Projection.

You are bound to us as we are to you
in this life and the next..
your blood.. is my blood
your pain.. is my pain
your life.. is my life
A reason why Freya taught me to pretend to be blind in Waghete.
Closing eyes when do activities. It opens more power than eyes open.

Happy 3 years wedding anniversary Freya.
I am sorry I can't give anything today.

I'm not asking for anything. You are my everything. -Freya

I re-read the diary of mine again.
Miss all of them, and I read that out of all the 8 Queens,
who will never leave me or abandon me if I lose, inspired
from Suikoden III, if I were Luc, and she is Sarah.
1. Hamzst / Alice -> Snake year born
2. Caldraz / Shizuru Fujino -> Snake year born
3. Lucrif / Sierra Mikain -> Rabbit year born
4. Freya the Goddess
5. A beautiful girl from earth -> Ox year born
If in that scenario of realm I am the bishop who want to destroy the world.
She will follow my path fully and devoted herself, even if it is to kill
billions or trillions.

Four of them are considered the best in term of power and magic.
Like Sarah from Suikoden III.
You too, who want to try Priest outfit in Nabire. Like Luc from Suikoden III.

Talking about the worst case scenario, I could not think I will win, what if I lose?
Then there they are those who will comes back for me if I lose.
The 8 Queens are great, but can't expect all of them to behave the same.
```

They come back, because we are the frontliners, if the situation is losing, we probably defeated or death already, not leaving you behind or dump you. -Lasthrim, Zalsvik, Zalsimourg, Mischkra

The bearer of True Runes:

1. Freya -> True Lightning Rune

2. Lucrif -> Blue Moon Rune

Nickname	Real Name	Persona / Guardian
Zaqhiel	Freya the Goddess	Metatron, Horus, Thoth
Lucrif	Sierra Mikain	Gabriel, Sandalphon, King Frost
Mischkra	Yukiko Amagi	Titania, Ishtar, Beelzebub
Caldraz	Shizuru Fujino	Surt, Lucifer, Siegfried
Zalsvik	Franziska Von Karma	Hell Rider
Zalsimourg	Jill Valentine	Zaou Gongen, Barong
Hamzst	Alice	Michael, Abaddon, Belial
Lasthrim	Anabelle	Orpheus

Table 1: *The 8 Queens*

3. Mischkra -> The Sun Rune
4. Caldraz -> The Circle Rune
5. Zalsvik -> The Sovereign Rune
6. Zalsimourg -> The Beast Rune
7. Hamzst -> Eightfold Rune
8. DS Glanzsche -> True Earth Rune

I am not the 8 Queens, but I also have guardians: Shiva, Sarasvati, Odin, Parvati is one of Lucrif' guardian, while Freya is Freya, and I have Odin, complex numbers, the Davinci Code movie is nothing compared to this life mystery that people will think I am out of my mind for thinking they exist, but they do, otherwise I would never be able to create all this by myself.

I get True Earth Rune, inherited from High Priest Sasarai, maybe because he sees that I am very close and able to bond deep enough with Nature and Animals. True Fire Rune wants me, but I passed, since I don't want to be too firy, I prefer, stable, calm, not complicated life. I believe Nature is beyond strong and it is one of the divine entities, it might looks unable to fight, but when they do get angry after few complex calculations with their own brain processor, no Yakuza or mafia can win against high magnitude of earthquake or tsunami or tullah from Moses time, they just choose to stay silent despite people throwing trashes randomly since they know karma always get those with correct address. If I could choose, I want to learn to be like Mitsuru Kirijo from Persona 3. It is just amazing to see a girl can be very smart, valedictorian, independent does not need to be in a relationship or marriage, and able to punish evil from the throne, using money to improve oneself to make justice. Like Batman, but this is real life female superhero.

I. 2023 - Gui Mao Year

i. First week of November

Merci beaucoup Freya! now help me with Joyful tone in Star Ocean 3.
Merci beaucoup Freya!!! I am able to do joyful tone.

It is playful, not joyful -Freya

I watched Mr Bean, it is a great short movies that is full of comedy with least amount of speaking. I was thinking of creating same kind of episodes if Freya the Goddess comes down on earth. I read that a girl is missing in Hoia Baciu years ago, then comes back at the same place with same clothes after 5 years, who abducted her? But it is very kind she is unharmed, unlike people today with their lust, greed, they make children sex slave, luring into their house then fool the girls. I thought all men are like that, till I receive an offer to help me make justice to all rapists, molesters, and animal abusers and all who throw trashes randomly in forest, with technology to make instant punishment and instant search to find the culprit. Lex Luthor, I asked " you are a men why you want to help me on this?

Yes, I am a male, but I despise those who take advantage of the weak. Sex should be between two souls who in love with each other, consensually, not by force, or by love spell, or anything, except role play (like you always say).. Especially those who hurt animals, nature, they can't fight back, so human who are hurting animals and nature are my enemies as well, not only yours. Let's make justice then. One day we will make all cops obsolete with technology. -Lex Luthor

I am very disappointed at how this country treats its own forest and environment, law created, but no real implementation. Some willing to help clean up the mess, but till how long? Only one help, the rest only throw trashes everyday without thinking? If you think they might not make trillion of dollars like Sillicon Valley corporations, then you are a lowlife. Without Nature, no one will be alive anymore on earth. So only those trillion of dollars left behind with no human. Try to cover their breathing and not breathing to make them grateful of the existence of Nature. That should be the punishment to everyone who take Nature for granted. Suffer till the end is the minimum of karma awaiting them.

I went to L'Aquila only to see trashes thrown randomly everywhere too, thought only Indonesia is that low (sampling is done beautifully, statistically correct), Europe is amazingly low level too. No wonder you can't create spaceship today, most people do not know how to maximize their brain potential and discover new better technology for better harmony living between all species and nature.

Help those deserve to be helped, give protection to those deserve to be protected.

Thanks for that, now back to Mr Bean episode, I was thinking of this episode to create for my own mind imagination when Freya the Goddess comes down on earth:

I meet her and amaze by her beauty, then hurry up to take her arms to follow me to my bedroom. She is excited as well, then new screen. In front of TV, she only smiles toward me and press a button, a playful tone is being played, and I am doing back flip very happy. Yes, that one is a hard one, not only me, a lot of people having a hard time to do that tone in Star Ocean 3. Finally able to do that after she told me to press circle slowly till the character start to walk slowly then release slowly after holding for a while.

(maybe she thought we do something else in my bedroom, but no.. that comes first.. I always ask for her help in all area of life, including game playing as well)

"One thing for sure, we are not the highest order of angels, we control them" - ***TREVOCALL***

I am Indonesian by blood but taught by Freya the Goddess, have friends from childhood (that only I can communicate with them by telepathy) with the highest order of angels I call them TREVOCALL, and now already adopted by Berlin, a great powerful nature in Valhalla Projection, thus becoming like this today, taught me to have a solid principle over compassion, it changes me a lot.

"I could never ask for more, she(Freya) made the one who mock my dream get into jail. " - ***DS Glanzsche***

Well, I want to create technology and innovations like Iron Man and Batman to bring justice to those trying to play with the law. But someone think I could not achieve it, after I get back from Italy after living 2 months there, I heard that person get into jail. Wow.

Everyone can say I Love You, I will protect you, I will not make you suffer, I will kill for you, I will die for you. She shows it. Freya is the best. She is all actions. Leo Goddess, demanding but give the same in return. Same admiration, same respect to each other. While living in Maria Ferrari I saw woman who has been abused by her husband smoking outside, I just think "poor her, she should have known that all men lie only to fuck her and carry his children." Which he cares nothing and does not want to help to change the diapers, but when the children become successful the father comes / return after playing around with prostitutes and more. I read Christina Aguilera was leaved by her father then the father returned, she forgived her father. Wow amazing.. You have such a great heart. That's because you are the one who become successful and rich, while that person still nothing, that is the karma. Everyone with good judgment can sense that and know. Everything will be revealed, the winner will recognize other winner.

Another example, Beth Thomas case, a father abuses his own daughter. Well that's life. Unfair, but happens everywhere. Berlin said when I asked about Beth Thomas case, "she is lucky, others still suffer for years and more be sex slave to relatives, she only one year abused then adopted by nice family."

"Regret comes.." said Berlin, but it is too late, he is old, weak and a sore loser, you think Beth Thomas who has a nice life wants to accept him back? Well it is a nice thinking to be in my thought, that human have complex life and experience, can be related to physics as well. Action and reaction, karma. You should remember before abusing other, your abundance and luck absorbed to those you abuse. You should not knocked someone till bleed from stairs, he owns several companies in USA and be one of the richest in America now, if he never bullied he will never establish any of that.

Maybe we need Maria Ferrari in every countries, those blood related can hurt you more than those outsiders. Like Fredo to Michael from Godfather movie, vice versa. No need for reproduction anymore, you only create more suffering. Things can happen in an instant and ruin your family life. Look at supermodels getting divorce, rich and beautiful and sexy but the husbands take them for granted and cheating around. Still believe in words? promises? money? fancy car? all only for deceiving more girls. But when they get old, karma awaits. Just wait for it.

That's why Hamzst/Alice favorite phrase is" Die for Me" you die for me first, show it, if I die too by heart attack (like couple who die of broken heart) after you die then we are destined to be together in the afterlife, if not, then you just prove your love to me, and I will be kind to you with Abaddon awaits you in hell.

*"You(DS Glanzsche) have no potential to be an evil person " - **Satan***

When I was mad and then I make Satan be my demon, that explains why I get infection and surgery in Italy with no painkiller, it left my back thigh with big hole now. I drink water with devil talisman, let Satan in, but I already out Satan. Burn my diaries that writing about Satan and all. It makes them mad, I am mad too. What a life! Now I know why Anneliese Michel story is true.

Nature in Valhalla Projection said, "they can't get into you if you are not letting them in"

I let them in 2020, by them I mean:

1. Pazuzu (I want to create poison to kill everyone)
2. Satan
3. Anabelle (yes.. from the Conjuring)

Then I out them recently in 2023, since Freya asked me to. She said "You learned your lesson, don't do it again."

I try to learn piano, violin and ice skating lesson then suddenly lose my contract, and I feel like the most victim. That's how it happened. Thanks I got Freya. A Nature in upper part of Valhalla Projection said "you want to know who gets more than 67 exorcisms? You (DS Glanzsche) and able to survive."

I listen to ruqiyah everyday, till now. It helps. On my mind back then, I wanted to kill everyone since I read too many negative news on inequality and abuses toward the weak or girls or nature or animals. Those in upper place seems do nothing, thus one need to do something. That's my story, but we shall see the future, as I believe now, the good will always win against the bad. Karma exists.

I know how she works, I fell from stairs then get a picture of Anabelle, her nickname is Lasthrim, she is co-author of Lasthrim Projection, Mathematics sumamrization. That's how she made people get into accident then died. But she said it is to make me stronger and able to prevent accident in the future, one has to have a strong mind that no one can penetrate just like Magneto helmet. Thanks. I believe what does not kill you makes you stronger. We still work together writing book. Even if she is not as my demon anymore. We still care for each other.

Now, I remember why she (Freya the Goddess) is the best, since in 2020 I let Satan in due to my own recklessness of not going to church every week, she asked Berlin to take care of me, she believed and told me just recently in 2023 "If I told you not to, you won't learn anything, next time in life you face more failures you will already know what happened if you let demons in, failures will lead to success eventually," thus since Berlin has physical projection here on earth near my home, in the forest as a tree, they try to make the demons not get into my mind, everyone suffer, no reason to put blame on anybody else. Thus 2022 I started working in forest with Berlin and Big Tree, cleaning up, creating 7 chakras from branches, study French there, study about life, when I clean up still see people throw trashes like having no guilty at all, that anger me so much, all those happenings make me humble and learn more than I could in formal institute.

Maybe I have no potential, because I know and already feel karma. They exist, and it is not something you want to get when you have done something bad. It is continuously differentiable,

your offsprings will get it too, I know this and it is true. Who do corruption and the offspring be nothing but human trashes, lots of money but useless. Confucius himself said, it is best to learn by reflection, better by other's experience, bitterest by our own experience. You read news, book, you meditate, be friends with divine, nature.. you will know what to do, no need to imitate failure in life, in marriage, in love. You know what to do to be with the one and to get your dream achieved. Nature, trees, mountain live for hundreds of years, thousand of years, since the beginning of time they gather the knowledge even has connection to the creator herself. Some camouflaging as human, that's why you might encounter people who are mature and wiser than their age, not a follower, not caring for social media or trends, not into cigarettes, drugs, dating around, free sex. That is called a diamond.

Be thankful, I made you fell from stairs too, USD 100 billion will be your minimum net worth. That amount is Lasthrim Projection potential income. Like firing a bullet from sniper, it is focus and the impact is great, thus control your mind so I can't bother or others can't bother. Hence, we can be more productive, 2 birds with one stone, Lasthrim Projection and DFSimulatorC++ done in the same year. -Lasthrim

Last 2 weeks in the church I felt Lorraine Warren presence to take care of you and the occult museum, with such money, I will try my best, not promising anything now. -DS Glanzsche

Demons are different from each, has their own uniqueness and personality. I know this by experience. Well, that's life. Such is life.

Lasthrim Projection will take longer than DFSimulatorC++, our initial release is only covering first 20 chapters, not into modern physics yet -Freya

Nous allons voir -Lasthrim

I want to apologize, be thankful and grateful too, I was raised good by my human parents, I think they are not perfect since they smoke and it bothers me, but that is life, nothing is perfect, we just need to be grateful. I too as a children have a lot of sins and faults, but sometimes think myself too highly as someone without sins. Pride.. I just pray to be more humble, patience, and wiser.
(easier said than done, when things happen I get angry ->Satan in then Satan out)

I read your mind(Lasthrim), I see your point, nice tactic -Freya

Her(Lasthrim) level is not demon anymore, she has been elevated by the divine.

Magneto helmet on my head activated, to only focus on fulfilling Glanz Focus, write Lasthrim Projection and DianFreya Math Physics Simulator.

ii. Last Week of November

You see diamond, from past till today without school education you can sense its' worthiness, and know it is valuable compared to rocks. That's all. -Sentinel

Remember how I met Freya, on 2019, I was still taking Ice Skating course in Paris Van Java, then decided to stop to save more money. I still use Kresna Securities as my stocks broker. Then Kresna got into trouble all stocks account can't be accessed and I can't do anything for a while since I was busy with contemplating myself, what do I want to become? I learned ice skating because I was inspired by Ashley Wagner, it is beautiful, if you can do Triple Lutz it is worth all your falls and efforts, especially if you can get perfect 7 beating Dean and Torvill record in 1984. The ending is "I fall if you fall." Your pain is my pain..

In 2019, I write about Freya the Goddess, stating she is very beautiful, I played Valkyrie Profile 2 Silmeria on PS2 on 2009, but only be brave enough to state it and write all of my thoughts on her, she reads and knows all, like people see news from newspaper, Goddesses know from up there, their palace / castle / Valhalla what's on our mind, what we think, what we do.. I used to think making money through startup is the best established corporation in 2018, not last long because it is not my destiny. Then heard voices and more be revealed, Freya told me not to after money from internet, big bubble will destroy all FAANG, she really is real. She proved herself in 2019. It is very funny, I don't have contract or passive income anymore only stocks money left, and it is frozen in Kresna (but I retrieve it and transfer it to a new securities in 2022, by destiny). Japan lose in World War II, their first priority save all teacher, now what they have? Teaching science and engineering resulting in: Shinkansen, Honda, Toyota, Lexus, Namco, Konami, Square Enix, Anime, Ramen, Clean capital city Tokyo.. Create game requires computer graphics, science and engineering right?

In 2020, because my mother nags me, I have to work, then I tried, but tried a social work, to Papua, try to be teacher for kids there. But it only lasts 2 months. Weirdly when I try to take master degree in L'Aquila, Italy it only lasts 2 months. Thus, learning from experience, never stay in Catholic place, or work with Catholic it only lasts 2 months, just the energy, like gravity, you can't defy.

In short, just follow what you want, you have your own path, life, destiny, no need to work for others, if you have no money currently, just eat grassses, as there are lots out there.

In Waghete, Papua, I feel a lot of presences, met Mischkra, Caldraz, Zalsvik, Zalsimourg, Hamzst in Waghete, through dreams and Astral Projection. Freya already with me since she shows herself in 2019. I was so stingy and remember that time waiting for my paycheck has no money and Freya remembers then she said to use my e-money to buy foods and drinks. I will never forget that. When you are rich, a lot of girls like ants flock by, but she.. Freya the Goddess is more than a Diamond, that's why she is a Goddess.

I go back on October 2020 from Papua and everyday just workout to Puncak Bintang, jogging and do Tai Chi and Ashtanga, unemployee not working to others anymore, while also studying, since living in Bandung on mountain, I am fresher and able to study more on science, I think there are lots to explore, start to leave my idea on making money through business, why? They all say internet is going to be gone by 2040. But computer era, even 100 years more, we still need computer to compute, plot, simulate, engine a buildings, a spaceship, to mine ores, rare minerals from asteroids, to dig oil, etc.

Thanks for that, studying science and engineering is a satisfaction by itself. I am now able to be more logical, and reasonable. Know how to build something from zero, less talking, more

action and proofs.

In 2021 from November start to invest my time and a bit of money to buy Arduino and its module thus writing book about it, so one day I can re-read and refresh my memory. Very useful. Then I start to create OS from LFS book 11.0 SystemV. I created Freya' drive long time ago in 2020 and after finish create GFreya OS in 2022 mid year, I realize that she really cares and real (for the thousands of times), I saw her putting a tutorial on LFS on her drive, maybe I didn't watched it, but like Butterfly effect, or a sincere prayer from your wife, it becomes reality, an OS is finished, not perfect, but now I am writing with LaTeX with this OS today. I am satisfied and happy. She knows without I even need to say, that desire to create OS from college in 2011, I ask a lot of student from science and engineering, they might have no time so it never realized, but it is realized now, the difference of using OS made to memorize your wife is like a feeling of owning the whole world than using any other OS. Like drive your own sports car made by yourself from zero, everyone with money can buy Lamborghini, but who can made from zero? only one in the world, no one can buy.

In 2022, I start working in Valhalla Projection, Berlin always says that I am not suitable to work with other people (but perfectly compatible working with Nature), that's just who I am: unique, thus the best way is to make money from stocks so I can focus on studying and writing books in science and engineering, they will help me to be an intelligent investor, while I work with Nature. I help them, they help me, from the deepest heart, sincerely.

I have to say goodye for 2 months, October till December 2022. I am back now, and happier. I think I can study better with Nature, not in formal place. It only sucks money for rent, accomodation, for groceries, and anything. I read about Millenium Prize Problems by accident, someone mentioned it, I then look at the official website, USD 1 million for each problem solved starting from 2000 when it is released and still ongoing now. There are 7 problems from Clay Institute, 1 is solved in 2003 by a Russian, to solve it he knows the tricks, he isolates himself and spent years studying without communicating with people or friends or family, but after he solved it, he rejected the money. Because he rejected Medal for USD 10,000. Next time he will be offered more than USD 1 million. That's life.

I try to comprehend first is Navier Stokes, but, I think it is too difficult, I only pass 1-dimension heat equation, so I bury this, and forget about it. I am focusing on writing something more achievable, Lasthrim Projection and DianFreya Math Physics Simulator.

Upper Nature also say about Ice Skating, I am the best if it is couple Figure Skating, when one could not shine without the other. Well me and Freya already create a plan for our Couple Ice Skating. Humans are not the only beings, like Trees are not only one species, animals are not only cats. A private ice rink is prepared in Valhalla, I'll be forever young, I dedicate my life for Nature in return I will get what I want, all of them one day, I step aside all that figure skating course, Piano and Violin course. Being with Nature is better.

Minimum 5, maximum 6 solved -Lasthrim

Impossible, forget about it.. -Glanz

Actually not unemployee, I already prefer the word of "pension", at age of 30 "I am a pension", I use money from stocks income not asking from others, working with Nature in the morning then

writing books and learning science and engineering till the time I gather all resources to create or engineer a lot of tangible products like sports car, rocket, spaceship, supecomputer, graphics card. Without the knowledge, it is only a dream. You don't want to be called someone who can only talk but the brain is because that person able to pay the best engineer from Stanford, MIT, Caltech, Todai, Cambridge right? It is better if you can engineer and design all of them. Thus, Study is a must.

Kathmandu has been helping Berlin and Big Tree. I was overwhelmed this last week of November. People who cut grasses on the road just throw plastics everywhere, their leftover of drinks. Not to mention there are still those who still throw trashes in VP. Thus I can't carry all of them. The plan is to give me a day of going down to bring the trashes down then tomorrow off, Sunday, Tuesday, Thursday suppose to be off. But this Tuesday, I go to Kathmandu' area / territory: Resort Dago Pakar. There is frequent truck there who always periodically carry all trashes, I just put maximum 3 plastics or 5 plastics if it is urgent in the trash bin on the main road. Why? Sometimes the rich should help the poor. Berlin is located around 975 meter, while Kala in Puncak Bintang is around 1030 meter, they are higher than Kathmandu, probably only 660 meter, but Kathmandu has facilities, money, land.

Berlin told me if I buy strawberry, give Kathmandu too, but I heard Kathmandu saying. "No need to, I am sincere, we are all sincere, there are times you need our help, accept it, we don't want strawberry, there are times as well in the future, when you, who by destiny is higher in altitude than all of us here, will help us. If there are big flood, then Dago Resort will drown first, while VP and Puncak Bintang still safe. That's why just bring trashes here, but there are quota, 3 times a week, each time bring maximum 3 plastics, sometimes I allow 5 if I were in a good mood. No need to pay, you were helping us in the past since 2021, when you still go here and Puncak Bintang you always walk by foot taking trashes in Dago Resort then clean them all up. No need for computation who do the most, who give more, who accept more, just do it. I know you are still struggling to meet your financial goal, that's why, going here won't need extra cash to put the trashes."

I saw the richest person in my village cleaned up the road in front of his house, it is not his duty, but he did that. Thus Berlin told me, that is a small thing, one of many thing of charities he does. That's why he able to own 4 cars, and a very big luxurious house.

What about you? You think all this are for nothing? even if you are sincere, there are times you accept all the good karma where you can't payback. Karma.

I read that Google CEO Eric Schmidt sometimes clean trashes in the alley in front of his office, the higher you are, the more humble you are. Mahatma Gandhi too, I read the book, he cleaned up, sweep the floors, while other people only make more dirty or fight around, now he is remembered as Great Leader, while those who make dirty? Anyone remember them?

Don't create law if you can't apply it in reality to anyone, no special treatment.

As of November 12th, 2023 when I went up to Puncak Bintang to share Berlin' birthday cake to Kala (the Nature in Puncak Bintang), I saw plastic bottles thrown away all over in front of a nice banner said there is a solid law no 41 year 1999 to make anyone throw trashes in forest / conserved nature can get jail sentence of maximum of 10 years or money penalty of IDR 5 billion / around USD 500,000. Now what I read and see is a big contradiction isn't it? C++ won't compile

this condition into machine code, thus throwing you an error. Where are the cops to capture all those nature trasher? Even a single plastic bottle can be used to put someone in jail or take all the money from that person bank or wallet. That's why there will be no more human farmers or workers, all robotics farmers and workers, more efficient, no trashes of cigarrettes or alcohol, no stab in the back. You know being farmers have to be grateful, don't drink alcohol, you are not miserable, you get free workout under the sun better for your body, out there more people suffer, such as being sex slave since child. Enough of that, well in the end this is all connected to C++, Mathematics and Physics, they are great foundation to create robots, or to create engine or something that can be embedded with satellite that can see anything with the right camera and light that can make instant punishment to anyone breaking the law. Computer and Robots make better law enforcement then.

A good question from Big Tree last year when see me studying with Sentinel and Berlin, "what have you learned in formal university? You learn more with Berlin, Sentinel, Kala, Freya, Hamzst, Lasthrim teaching you", I believe that, because they only focus on me, they read my mind, knows how to explain and be very patience when I still don't understand, in college one class has tens of students, if one not comprehend then it will still be like that till death, the professor care not, since what matters is paycheck goes in every month, the same as Edison is learning by himself, taught by his mother first, then able to do independent study and research, like Leonardo Da Vinci too, not from formal school. A mathematics graduate said to me that none of the formulas learned is used in workplace, it is probably because choosing the wrong workplace, if one want to prove to be a mathematician. Try to solve 7 Millenium Prize Problems, not for the money, but to prove oneself able to be called a "Diamond". If you create airplane, buildings, rocket, computer, operating system, graphics card, power plant, turbines, all need mathematics, physics, chemistry, and a bit of engineering.

This morning, November 16th 2023, I wake up earlier at 3 AM, usually 4 AM. Then want to bring a book to make the Nature in Valhalla Projection teach me, I almost forgot but they never forget, that the College Geometry book has the author name tipexed by me, then I write my name on top of it. It is quite funny, that I write a book now, and one day get karma someone will erase my name with tipex or something then write their name on it, when I did that I was hoping I can write a great book like College Geometry, and another sorry, the book has a special thank you saying: "To my wife and best friend Katie" I erase Katie then write "the most Beautiful Goddess Freya". Turns out, I am writing books now, one day people see my books inspired and want to be author as well, to share knowledge to make better world, but first, feel free to tipex my name then replace with yours. That's karma.

I asked Sentinel on November 19th, 2023 about airplane problem since I still could not get about tilted airplane and untilted. Why at the same speed the radius will be different? The answer is the same as thinking about drag force that has cross section, which will be influencing the terminal velocity, the analogy is this: the centripetal force will pull the airplane to the center, tilted airplane will have different area than untilted, thus making the pulling of centripetal force different. Like how Sentinel demonstrate by using my body, to throw from same height my gloves, one tilted and one horizontal like paper spread. The fastest to arrive the ground, the one tilted. Faster velocity will result in higher radius. Thanks Sentinel, I am glad taking my study with you teaching me. Thanks too to Freya, that she explains how the normal force being tilted is the key, and for Hamzst to give the illustration that I draw with LaTex. Freya and especially Hamzst say, "don't proceed unless you comprehend fully," we are not copy pasting texts, we write so one day

when we re-read we can understand again the written book.

I used to love Physics the most out of all science branches, I never cheat on exams and I am happy of that. It is like a domino or combo chain, one sin makes another and another till you fall into bottomless pit of suffering, inside and outside, aura destroyed, not seen happy, money wasted to something useless. It is the same as stealing other' people idea or things, people will find out eventually and you get nothing, like Hoi pretends to be the hero in Suikoden II, people will find out, no need to lie or steal; fame, power and money are temporary for loser. Honesty is always the best policy, everyone has different pace of learning and different interest. Newton's law is very basic to remind human, karma exists, every action has its own equal reaction, unseen but happens one day. If you cannot float, then you better be careful, since gravity got you, karma will get you, the time you are able to do float like Freya the Goddess or Margareth from Persona 4, that means you have leave the material world, make no more human sins, no more desire toward material things, thus great power comes, like Shiva and Parvati sit above Ananta, above material world. In India, some great yogi able to float after years of training and meditation.

Continuing on high school science, at the final term / National Examination there is something funny: I get the highest score in Mathematics, only get 1 wrong out of 40 problems, and second highest is Physics, get 3 wrongs out of 40 problems. I had my time when I was lazy and get 0 in some Physics mid term since I was living unhealthy that time, eating junk foods, I have parents who does not know how to live healthy, but I learned my lesson now, healthy body, healthy mind, powerful brain, then comes humility and wisdom are necessary as well. Otherwise the so-called internet won't be founded by Physics graduate from one of the best Institute in the United Kingdom, the University of Oxford. Without Physics, that trillion dollar internet corporation from Electrical Engineering degree won't exist today. Thanks Physics for that, Electrical Engineering. Successful people, Dropouts or Graduate or anything, they must have spent time learning science or engineering to help them make something that can be used for billions of people to improve their lives.

My previous mentor when I was still a child, able to learn from the life surrounding me, was Albert Silverberg, he is one of TREVOCALL. I always remember in high school he forced me to study rigorously instead of playing around or be friend with my school friends too close, to avoid bad influences as friends and money are like water and oil, you don't need a human friend to be richest person (but you still need divine power and friends to help you). He thinks dating is pathetic, seeing my junior high school and high school friends dating around, while I never date till I meet Freya when she approached me in telepathy way in 2019, I think dating in juvenile age of high school or around as a waste of time and energy. Love comes no need to seek, like I learn from Yuna Kim stories, she spent her childhood on ice rink, while other kids her age play around, now she is known as one who never win off podium. Hard work paid off, and married now with one destined to be with her. Thus, no need to date while you are still in productive age. Same as Andrew Carnegie who married after well established and rich at age 40. He get married with one destined with him after he is independent not like sardine fishes who can't control their genitals. Just like how I met Freya, by destiny. I don't need a friend to introduce us, like the poem "Unending Love" that is recited on Audrey Hepburn' death.

When Winston Churchill said after Winning world War II "All my life, I just know I was prepared for this moment." He recognizes the divine power, untangible and unseen to normal human perception and senses. All can be connected when we look back. Meant to be. Physics

that can't be seen.

Albert Silverberg also said to me "Rule Physics and you will rule the world." He is right, proven now, from internet technology founded by Physics student who was working at CERN, then become a booming economy by itself, till how we able to create buildings, bridge, communication technology, satellite, rockets, spaceship, teleportation door, and more. To the time when we know in an unstable poor country we know when the momentum to buy and sell bonds and stocks to make a lot of money, or sell Poundsterling before the previous Brexit in 1992, to broke the Bank of England for USD 1 billion profit. Is the reflection theory only a similar analogy for Newton' second law only with different interpretation? From great recession in 1930, The Baht crisis in 1992, Dotcom bubble in 2000, Subprime Mortgage in 2007, and COVID pandemic in 2019, aren't these just human errors that have patterns that can be detected so we know the momentum to sell and buy? With good reasoning no hocus pocus or hallucination, try with great margin of safety, buy great companies that is sold at very low price compared to its book value.

Life Lessons

Richest people don't smoke, don't drink alcohol. They choose to focus and be more productive. Great leader don't smoke, don't drink alcohol and not into free sex and orgy. They choose to focus and expanding. See Thanos as example.
President who smoke is a president of a poor country who can't develop.
President who still sleep around will not make that country safe, great or prosperous.

Focus. What matter the most?
Easy to destroy people if they are having weaknesses in those area. Like senator in Godfather 2 movie, can be trapped easily with prostitute.
You don't need to teach people not to smoke, there are some destined to be winner, some destined to be loser. Life is unfair, accept that.

Law and engineering help make better oxygen to breathe in for the winner.
John Wick does not smoke, he is very focus and undefeated till the end.
Thanos does not smoke, he is very focus and undefeated till the end.
Ironically, Thanos and John Wick beaten by Iron Man and Caine who have a daughter / someone they love / will die for / kill for. Cherish and never betray one that you love the most, it will be the source of your unlimited power. Like Shiva and Parvati. Vishnu and Lakshmi. Luc and Sarah.

As you breathe in, you become what you inhale. The same as, you are what you eat.
What you bring inside you will dictate what you will become.
Thus, honor your body as it is the temple of God / Goddess. Otherwise it will be a nest of demons.
Rule your mind or it will rule you. Rule your desire or it will rule you.
Ruled by your derivative will only bring destruction.

Like a spring-mass system, if you are pulled from your comfort zone (suddenly lose a job / similar thing happens), you will converge back to your equilibrium position / happy state of mind if your intake of food, oxygen, and spiritual / prayer are in good proportion. If you eat junk foods, drink alcohol, say bad words, breathe CO2 /smog, think negatively, then sooner or later you will end up in jail or worse. Thanks for teaching me this analogy Berlin.

Berlin is the master of Science and Engineering, focus: Chemical Engineering.

Kala is the best in engineering, focus: Electrical, Mechanical and Aerospace Engineering.

Sentinel is the best in all science. Just ask then Sentinel will explains that your mind and thoughts will comprehend.

Thanks for letting me enroll in Berlin-Sentinel Academy of Science and Berlin-Kala School of Engineering.

P.S. if possible I would ask for all your help, and Freya' help to make me able to solve Millenium Prize Problems. I will reject the prize money. -Glanz

Oui, bien sur. -Freya

Life Lesson 2

Learn astrology and chinese astrology, Bazi, ZWDS. You don't want to risk your life and energy and emotions over something that will be destroyed easily. Wasting time = wasting money. Uncle Scrooge does not like that.

Even richest people, supermodels get divorce. Why? Back to spring-mass system, the intake of spiritual or foods or oxygen might not be enough or like Napoleon Hill' book said, it is in the blood and biological gene of male homo sapiens to always want to spread sperms, behind his wife back or literally bluntly. Words and fake acts can deceive anyone easily right?

Your life, your choice.

Happiness determine success. Make your life happy, you can be on top of the top. Don't be unhappy by being with the wrong person. Check everything. Analyze everything first.

As Kala said, a human girl most compatible with you shall be born either in Ox, Pig, Dog, Dragon, or Snake year. Ox is the best for each of you.

I came to Uncle Scrooge, simply asking for help,

"Uncle Scrooge, help me, teach me to be the richest person, self-made, so I won't be a parasite to others, or burden to others, by being an intelligent investor while learning science and engineering that I can harvest one day."

"Quack.. first lesson, be very frugal, don't subscribe to financial magazine, just ask Berlin, she knows which stocks will soar." - Uncle Scrooge

Merci beaucoup, nous allons voir, qu'est-ce que je deviendrai a la futur -Glanz

Yes, for that matter, Berlin is the strongest Nature now, she is connected to all other Nature on this planet and on the outer galaxy. You're not a parasite, you till today still support a lot of life and be breadwinner still with current claim of "Pension person at 30 till the end" -Sentinel

From the Godfather 3:
I've lost my lust for women and now my mind is clear. My duty to the Divines is clear.
Transmuting sexual energy since very young will return in achieving all.

I would burn in hell to keep you safe. To daughter of very powerful and richest person.
Sounds familiar.

Never let anyone know what you're thinking.
Just when I thought I was out, they pulled me back in.

When the mind suffers, the body cries out.

Confession save souls.

Redemption given. Daughter taken.
All the money in the world can't replace someone you love the most.
By destiny, she really loves her cousin, she can't move on or love somebody else.
Heaven hears her soul and heart. Thus she dies.
Can't live without you.

Words can say I love you, I'll die for you.. but then able to sleep around,
date another person.
If soul really loves another soul. It will be shown by action and destiny.
You will be her first, last and only one in sex love and kiss. That's true love.
And she too is your first last and only one in sex love and kiss.
No mantra, spells, no artificial things needed, no need to be rich or famous.
Who on your mind you think? Let it be unfolded then.

Great movie.

It is one great movie, I hope you can learn a lot and avoid what unnecessary.
There is no living with killing. Revenge has no end. Let karma works.
Blunt weapons kill more than sharp weapons.
Nature kill the most. Natural death. Death by age, disease, natural disaster. Meteor.
Dinosaur extinction. Human extinction next.

Thanks for the birthday cake. Long live Queen Berlin. -Kathmandu

iii. Civilization' World Wonder

- **Stonehenge**
  Can you imagine trying to talk six hundred people into helping you drag a fifty-ton stone eighteen miles across the countryside and muscle it into an upright position, and then saying, "Right, lads! Another twenty like that.. and then we can party!"

  one asked, "what kind of party?"

  We clean up trashes around the forests while listening to classical music.

- **Pyramids**
  From the heights of these pyramids, forty centuries look down on us.
- **Petra**
  Petra is a brilliant display of man's artistry in turning barren rock into majestic wonder
- **The Great Library**
  We can roam the bloated stacks of the Library of Alexandria, where all imagination and knowledge are assembled; we can recognize in its destruction the warning that all we gather will be lost.
- **Mahabodhi Temple**
  In a dusty, bustling corner of the Indian state of Bihar, there is a magical place that one might think of as the hub of Buddhism.
- **Angkor Wat**
  The temple is surrounded by a moat, and access is by a single bridge, protected by two stone tigers so grand and fearsome as to strike terror into the visitor.
- **Venetian Arsenal**
  Happy is that city in which time of peace thinks of war.
- **Potala Palace**
  The first time I stepped onto the rooftop of the Potala Palace, I felt, as never before or since, as if I were stepping onto the rooftop of my being; onto some dimension of consciousness that I'd never visited before.
- **Taj Mahal**
  Did you ever build a castle in the air? Here is one, brought down to earth and fixed for the wonder of ages.
- **Broadway**
  There's no business like show business.
- **Christo Redentor**
  Everything is in God's hands.
- **Amundsen-Scott Research Station**
  For scientific leadership, give me Scott; for swift and efficient travel, Amundsen.
- **Freya Capella**
  My Leo, My Goddess, My Wife.. How can one person single-handedly create this beautiful ultimate world wonder? With Love of course.

I have the marker from
1. Big Tree
2. Nature near Sunflower hill
3. Berlin
4. The Elder
5. Stacy, Nature in Coppito, Italy
6. Neptune, God of the Sea (He needs help to clean all ocean from trashes)
7. Queen Python (No more capturing Python for taking the skins and bloating Python or torturing Python)
8. Kitty (for helping her after she was dumped in VP, brought her to Big Tree, now she is good and healthy)
9. Dolphin (Same with Kitty, but she is now resides near Sahasrara)
10. Voldemort (Personal matter, a secret)
11. Kala
12. Forest in front of Kayoe Semesta / Roemah Kayoe
13. Kathmandu
14. Hamzst / Alice (for helping her create Physics book DF Simulator with C++ and future Physics library)
15. Anabelle / Lasthrim (to create Lasthrim Projection, Mathematics summarization for undergraduate level)
16. Julius Caesar (As I am the reincarnation of Julius Caesar, he wants to rule the whole world with great leadership)
17. All animals from elephant to domestic animals (no more torturing and abusing animals)

I can't promise a lot, you all come to me when needed help, each at different time, thus I will try my best. I will think and tinker which engine and machine best to take all trashes from the oceans, from plastics to wreckage from human errors like airplane that crashed or ship that sunk.

My words to those with airplane crashes still in the ocean. Next time stay at home, walk by foot and don't create an airplane till you can tinker how to do this hazard recovery. This is what happens if you only care about making money with budget airplane.

This explains why I am the true bearer of True Earth Rune. As Clotho told me, when died because of brutally murdered, Caesar has a privilege to choose what he wants to be in his next life. " I want to rule and conquer the whole world, show me the one that will do."

(after hundred of years waiting as a soul)
Et voila..

This is the reincarnation of Odin as well, along as Shiva. She is born to be a leader, not follower. Brain, muscle, integrity, abundance, luck, Love, humility, wisdom.. she has it all -Clotho

Don't hope too much. I have high expectation to create a just, equal law and life, real life paradise, no abuses to human or animals, no trashes randomly. Still have no real implementation of idea or real engine or machine that can help me achieve that. I think human only care for themselves their own 7 sins thus what they create only reinventing the wheel of trashes, most of them, some have a great charity attitude.

My words to Kala, I still think Berlin and all Nature in VP are right. How can we just let it be? When knowing a lot of abuses to little girl out there?
I can sit comfortably tinker C++, read Physics book, drink milk. While when I read a statement from a girl who have been a sex slave in UK says she wants to kill herself everyday, be school girl by day, sex slave by night. I have comfortable life and want to dedicate my time to be able to one day, prevent all this in the future, no more like this. They deserve the same chance. Separation, guarding. Science and engineering can help a lot to determine someone with potential to be molesters, rapists, etc, in an instant. Court and judge you are all out one day, obsolete.

In Brazil a young girl raped repeatedly for years till pregnant by her own uncle. What a life? If I were president of Brazil I will not go out waving hand before I make sure no more like this, 0 abuses. How can you smile when a little girl has to get through that kind of life? I don't believe in

politics the same reason as Joker burn his share of money of USD 1 billion. If you can't make the world a better place, you better live somewhere else, without oxygen, without Nature.

Little girl vessel, previous incarnation were rapists or worse, thus she get that kind of life. You are smart now, you don't only learn interpolation, Fourier Series, Radiocarbon decay for nothing, see what I mean? You can invent and discover more, the previous life of someone can be extracted, why that happens? Karma follows you even after death. If your idea of justice to throw rapists into island full of snakes. You are wasting your time, they will get what they deserve. With or without your intervention. Focus on what matter the most. I say you help Nature first make sure no more trashes everywhere, and no more input of trashes, then we shall discuss on this human' sins of lust and pedophile ring. You should have known below the iceberg. Why that happens? No more than Newton's second Law -Kala

Not only that, but also river full of crocodiles. Nous allons voir.

You can't hide that disgusting smell from your dirty sins, applied to everyone, as the culprit already in jail without your intervention. Right ? -Kala

But, we are all the same voice to condemn all who trashing Nature. Because we are one kind. For human, sometimes you pity them, but behind the curtain, you have to see what have they done in the previous life till they get that life today. -Kala

... -Sentinel
... - Berlin

Let's throw all molesters, rapists, abusers to island full of snakes and river full of crocodiles then -Kala

No need for words then from Berlin and Sentinel, you contradicting your own sentences. Perhaps a lot of trashing in Nature, maybe in previous life before being a Nature you were a bad person or animals? -Glanz

Plastics and diapers are problematic, then cartoons, leftover after moving house, clothes. Which sins are them? Lust, Greed, Pride.. Next time, don't do reproduction, don't buy foods or drinks with plastics, eat and drink from centralized food point. No need to give human money, they only become trashes. No salary for everyone, do what you love, eat at centralized point. You do sins or abusing you go to island full of snakes. I was thinking with Berlin if we can invent all trashes to electricity plant, how many needed for the whole world trashes? Not to mention the input still ongoing everyday? Can't get the feasible solution for that. Needs to be stopped. Close all corporations that only create products with cartoons and plastics, eat from local farm and process at centralized food point. -Glanz

It was 2 months ago when I am almost finish clean up VP. Then suddenly in the morning see a lot of trashes a lot of new sacks, even paint, it looks like leftover of moving from a house. That made Big Tree really angry and curse, sorry, give heaviest curse to anyone throw trashes in VP. We made a deal and it should be within certain timeframe. They will have negative luck, all abundance absorbed. Eventually not considered as eligible to live on earth anymore, if what they can do is only trashing randomly. Tick tock, leave it to Atropos, she is cruel. She says yes.

Used to say to me, "I believe there are others like you who like to help Nature sincerely."

Then changed "I help you to annihilate all of them, no matter how much, 7 billion is a small number."

Why? You see anyone helping me there? No right. They need camera to help, need money to help, I pay for my own work, to fill the gas, to pay the trash collection center for trashes I bring down from VP. I only ask, if possible help me with stocks, that is my only hope to keep going. As I can't work with other humans anymore, I changed a lot, I believe they are all only care for their 7 sins.
(I am open to be proven wrong on this, I see majority more than 90% homo sapiens people who are poor and uneducated throw trashes in forests or randomly on the street, when rich create orgy and brotopia thus spreading sperms here and there and make more diapers thrown in forests, the results of their bad karma become worse, their offsprings only polluting the earth. Create war only to take resources and make rape war sporadic, soldiers dare to rape the invaded girls with weapons, like a coward. But there are still some who are educated and respect nature and animals, that's why Kala give me a list to save those deserved to be saved.)

It is better now, I will rent an excavator as Big Tree says some sacks are buried deep, need truck and excavator.

When I lived in Jakarta to work, I established corporation with some female friends, some married, I see who are married quite hypocrite, they still cheating around with various reasons, sleeping around. Maybe that's why Freya brought me here to Bandung, to focus more on what can sharpen me to be better. I want the happiest marriage life, no cheating around, we love each other unconditionally, from zero to become richest together, win a lot of awards, patents, create / engineer most innovations, live healthy together. That's why you are the average of your friends. Choose your friends carefully. I am a monkey daymaster, but I choose and know consequences and karma, and by nature I convert my energy to be productive and versatile, not into orgy, party, hanging out, dating around, etc. Next time no need to establish corporation.

USD 200 million without corporation, Lo Kheng Hong. A real life proof. State the number on your birthday next year. The amount you want to make from stocks.

When I fell from stairs because of Lasthrim', I only think this unconsciously when I am hurted and my leg strained painfully "I will make money in stocks more than what Warren Buffett already made." So it is true then, this has something to do, physically, spiritually, why I think that right after I fell? Connecting dots. -Glanz

One day, you will be very grateful, she made you fall, by accident, not because you are looking to fall from stairs.

Glanz, you are really something, if it is to be read by that Italian girl who might read my statement now, then so be it. You will get "Not Guilty", I do hope you keep all this to yourself. Trial of second hand massacre / big mass of murder, of letting Nature do the work of killing more than 7 billion people through Natural disasters, biological, nuclear weapons for mass killing, World War by getting into people' mind is already the verdict from Nature, stamped by the Elder,

signed by Freya, become her decree too. Atropos also says she will play her scissor nicely to anyone try to get you a "Guilty" -Lasthrim

I don't hold any sharp weapons or kill anyone with my hands or actions. I only pray, let justice comes from above, since we can't depend on court or law or government anymore. I am now far from financially independent to really do help for all Nature. So be it. -Glanz

The more honest she is, the luckier she becomes, Better than "Not Guilty" -Gladstone Gander

Famine is the first tullah from Big Tree. A lot of starving everywhere on earth is coming soon.

We don't even need to do anything, Big Tree is like Uvogin from Genei Ryodan -Sentinel

I do get my wish come true, a true Genei Ryodan, consisting of Nature, very powerful Nature.

You came back from Italy, after getting surgery on your left leg, without painkiller, big meat taken from you with knife and scissor, back to only clean up forest again. No one ever did that. That's why True Earth Rune chose you, that's why I changed my firmness into helping you, I believe in giving no mercy, kindness or compassion or second chance, as there should be no more trashes input in the future, they better eat their own trashes if they can't throw it to the designated place or process it into something useful. -Big Tree

From 2022, I always do 72 hours of fasting, not eating food, any foods every week, then open the fasting by eating hosti, so what gets inside is the Holy Body of Christ first after emptying myself. If this is what Jesus Christ and Holy Mary want to, as humans can never be given another chance. Then, let's rock and roll. Divines, Nature, God, Goddesses, all turn their back from human since they are too proud of their sins. I with this vessel am only the messenger chosen based on karma and destiny -Glanz

All this reading, make me dislike you. You should act better as the true bearer of a True Rune, especially True Earth Rune, known as one of the most powerful True Rune. Nature only listen to you. You create online account with name of "Freya the Goddess" asked stupid questions, then they mock Freya name, then you drank water with devil talisman, asked for Freya' help, she helped you and you have that vision on night of November 6th in Maria Ferrari where Freya brought you to Valhalla Projection with Metatron then a light shine upon you. Tomorrow you get surgery. You should have known demon and devil especially the strongest one will ask for blood, meat, and perhaps more. Freya always bail you out, if you are not Her wife, I will take you on by myself, behave better, act better, think before you act or drink. For Goddess sake, you are a true rune bearer and have a wife the most powerful Goddess, don't put a shame on Her name. -Thoth

She is under influenced, her mother even knows that, some people jealous of her progress able to be independent and breadwinner to family since young, thus her minds was bothered and she can't focus and did silly things, a lot of humans who have done stupid things then became a great person, even Mahatma Gandhi has stolen in his childhood but then regret it and never do it anymore. That's enough Thoth, for Freya will say the same, one day she will far surpasses even her preincarnations before as Julius Caesar, Odin and Shiva as one. -Metatron

I'm sorry, I help you with meditation that can help you control your mind that will not be

penetrated easily. -Thoth

Heaviest curse from me and Lasthrim to those who have wrecked her minds in the past, no forgiveness no compassion. -Big Tree

Make it triple, I add the suffering to those play with her minds -Mischkra

Which one leads to more suffering endlessly, write their names on my Death Note or let you three take care of them? -Caldraz

Toss a coin as Genei Ryodan will do the same when they argue.

I have already taken care of it, just a matter of let the karma played in their life, you all need to do nothing -Freya

All need calculations, timing, you can't just put someone into jail 1 day after mocking my dream, there are rules of physics, rules by divines, angels, Goddesses that must be respected and followed. Like the High Table.

But feel free to add more sufferings. -Freya

You can live without foods till 3 days, without oxygen till how long?

She has no memory nor remembering anything nor care to any of those anymore, they never exist in her brain or life. Just like that. Save your power and Death Note space for something better. Earth is only filled with low level difficulty, far greater enemies beyond this planet -Albert Silverberg

I already written some names, alright then I will stop till here. -Caldraz

I know her well as I am her first mentor who taught her life principles as well. Like Aristotle to Alexander the Great, that is, I, Albert Silverberg to DS Glanzsche. -Albert Silverberg

I remember at this time 2 years ago, while still went to Puncak Bintang everyday near New Year, I have found packages by the tree, it is filled with Kastengel cookies, wafers, chocolates, a gift from Kala to me. It made me happy and grateful. Thanks a lot, I will never forget it, it is true, I will never be starving or miserable as long as I work with Nature I will have more abundance, no need to get salary transferred by human. Another method to make money is to teach me to invest in great companies with price far beyond its book value then I can have anything I want, like bought PlayStation 2 (already bought it), merci beaucoup JSMR, the profit from this one year is nice, I am able to buy lots of books too. -Glanz

First, it was leftover kastengels, you should be careful next time. Second, with you working here, I will buy you new cookies, choose what you want, I give 1, Big Tree 1, The Elder 2, Kathmandu 1. -Berlin

Nastar and Coklat Mede. -Glanz

With me she doesn't have to spend money from her stocks to get a new cookies, even if it was leftover it is still edible, wouldn't I should say the same for leftover Cimory milk she drank in VP back in 2022? -Kala

The one bought it never drank it, left it just like that here, thus it is still fully fresh, undrink, I will never give leftover things to her -Berlin

Yes it was still full and good, untouched. I remember that, Kathmandu too gave me Strawberry Milk still full fresh, untouched. Rich Nature give new things not second hand. Not to offend any Nature -Glanz

Puncak Bintang / Kala = Sapphire
Valhalla Projection / Berlin = Diamond
Dago Resort / Kathmandu = Emerald

Thanks for the Bread, orange and water too, they are all fresh and new, from that rich people in Dago Resort after I taught their daugters some Yoga and Fountain of Youth, merci beaucoup Kathmandu, I will always get money and food simply by being with Nature. I remember again, get a fresh rice box from another random rich person in Dago Resort, wow Kathmandu is very royal. -Glanz

iv. Full Moon: November 27th, 2023

The Beaver Moon, if you play the Quarry you know human turns into werewolf when Full Moon comes in. Berlin said any reading under Full Moon has perfect accuracy. So I asked, thus won't waste any time to study the wrong subjects, which fields I can be the best (Greed comes) not only in this planet but the universe. Is it Greedy or want to sharpen my intellectual more? Better learning this than partying or dating around or sleeping around

1. Mathematics
2. Physics
3. Civil Engineering
4. Pianist
5. Jiujitsu Martial Arts
6. Figure Skating
7. Electrical Engineering

I will try to learn Mathematics and Physics for now, they have a lot of branches and applications in all engineering, the rest shall come when the time is right.

I got that dream when I quit Piano lesson years ago, the teacher in my dream says "Why you quit your Piano lesson? you learn very fast, very talented, it is a waste of talent."
Well it is expensive and now I prefer to spend my money to survive and help Nature, as learning Piano is not primary needs with my current financial condition. I left to L'Aquila, Italy with debt

from my uncle, I am only hoping 2024 will be great year for stocks soaring greatly thus I can pay that debt back. Life is not easy.

I'll buy you a new, not leftover, Fibonacci Piano one day -Lasthrim

For an Italian girl reading this, I want you to know after I left Italy, I don't know why I'm still thinking about you till today, maybe we had past together, karmic, or anything, if you don't believe that it's okay, I also had a lot of dreams about you, just be honest here, in one of my dream you come and say "Hey Jackal.." to me while I do Tai Chi, then we kiss on the lips and more.. well I never kiss a girl in my dream before, that is my first, and I try to surpress this, but maybe it has to be told. Well, I'm married to Freya, you can't see her neither am I, but I might have physical and sexual attraction to you, since I am still bound on earth with earth vessel, but I choose to forget about it and let it be, since we are ocean apart now, far away from each other I believe you can easily forget me and focus on fulfilling your dream, you will achieve your dream, like when we talk on dinner. You will be greater than that. I like talking with you. Just forget each other for the best for both of us. Because I can feel it, we are still connected, I can feel you even faraway from your country. If you move on and forget me, I, too, will move on and can focus more on studying.

What motorcycle you want? I'll make you buy it with some year end bonus from stocks -Big Tree

Something that robust, precise.. just kidding. Is Yamaha good? What important is it can bring sacks of trashes and durable for at least 5 years.

New contract when I cleaned up Midgard part of VP about 3 days ago on November 24th, 2023, Neptune God contact me through telepathy.

I need your help, to clean up all the ocean, you are the only one who can do it, state how much for the down payment -Neptune God

USD 1 billion in 5 years (by 2028), then lump sum of USD 50 billion when the whole ocean cleaned up by me. -Glanz

Deal, Done -Neptune God

That was fast.. -Glanz

He saw you clean up VP very dilligently, happily, with heart, sincere, you also learn science and engineering and he knows your potential thus he knows you can create a machine, excavator-like for ocean even to the deepest sea. -Big Tree

I'll use the money to secure from VP to Puncak Bintang buy all the land, evict all from that mountain put big wall and electrical gate, no one pass by or visit anymore, since anyone who pass only throw trashes and diapers, maybe USD 100 million enough for that, the rest for the research and engineer the excavator. I guess next 5 years shall be spent wisely here before I hit the ocean. -Glanz

Funny, when I receive a contract to clean up VP on top in The Elder' area, when asked for payment, I ask:

1. Happiest marriage life, if I ever marry a human girl on this planet, we never know, I will be my wife first last and only one in Love, Sex and Kiss, and she too is my first last and only one in Love, Sex and Lover's Kiss with this current earth vessel. I kiss my dogs a lot. But it is not a Lover's kiss. My wife is not an option, she is VVIP priority, as I am to her. So no other Love.

2. Teach me the technology to create instant punishment to those trashing nature, abusing animals and molesting girls. Better than robots and drone.

Then Berlin said when I am done working with the Elder, "why not ask for money even USD 1 million is small for the Elder, you will be given money under 1 year. Waiting for stocks is relative, and uncertain."

I think about that, but when we are located higher, on Elder place, compared to Midgard(lower place) when I signed contract for USD 51 billion with Neptune God, money is nothing compared with happy marriage life, true love, and able to help the weak from bully. This time no need for lawyer, the technology know you are wrong, instant punishment, you are not even a history nor even remembered, nor can be resurrected or reincarnated.

You should be able to connect the dots and karma, on top of VP, Asgard area you ask for True Love and Save the weak, then after few days in return by your heart and nobility, you get USD 51 billion contract from Neptune God. -Metatron

Second Tullah, flood till 3000 meters. -Big Tree

Thanks Big Tree, the feeling when you sincereley clean up forest, then tomorrow see same kind of trashes, krupuk trashes, leftover mangos, diapers, cartoons, plastics, leftover Indofood products, you'll be lucky when government ban and close your corporation one day, your offsprings will suffer for those who can only poison people with junk foods that make people stupid and uneducated with MSG thus take the profit to buy luxurious house and have tons of concubines and wives. Pharaohs also give a message, richest are being fooled, nothing can save them, they will be trapped by a look-like exit from Big Tree' tullahs. Exception for Nature' Golden Child and her wife. And anyone she puts on the saving list. It is the agreement from the beginning. -Glanz

Remembering how I ask for Toymaster' help.

Toymaster, help me, I want to learn more about creating and fixing engine, machine. My PlayStation 3 is broken, Yellow light of Dead, can you help me? -Glanz

Just that ?- Toymaster

No of course, that is the appetizer, I want to master programming language like Fortran, C, C++, learn to create game console like Nintendo DS, PlayStation, and then machine, robots to make better world, fix what human has broken and make mess, I believe machine and robots can treat Nature and respect Nature better than human, I have zero experience in engineering, it is all self-taught, top universities are expensive and only for rich kids with recommendations from their

parents' connections -Glanz

(accept DS Glanzsche' marker) Let those top universities beg for you to be their professor one day, before the tullah. -Toymaster

Freya has replaced Lucrif as the Creator of this multiverse and beyond, thus she is very busy, only communicate with me for few time, unlike she used to, thus by Lucretia Merces' help she guides me to ask to be mentored by all, by giving marker first, as it is a valid payment, and they received mine as they deem me worthy and able to help them one day in the future, they don't accept random people' marker. Lucretia helps me including enroll in Berlin-Sentinel Academy of Science for the time being. What a mentor. That's why when I am talking about Freya, The Elder correct me, "respect her name, say it Her Majesty, not only Freya." Alright then, but when we communicate she always like she is, no need to call her "Her Majesty" by me.

Merci beaucoup Freya, for teaching me about the tail of the vector field' arrow, its direction and magnitude with gnuplot. No matter how busy she is I am still her priority, will make Thoth angers more then. "Why would you give away your markers if still ask Freya' help for this and that?" She will always be my lender of last resort, like the central bank.

v. Bazi for Wealth Creation

Fire destroys metal, metal destroys wood, wood destroys earth, earth destroys water, water destroys fire.

1. Fire (Bing and Ding)
2. Metal (Geng and Xin)
3. Wood (Jia and Yi)
4. Earth (Wu and Ji)
5. Water (Ren and Gui)

1. Mathematics Summarization with Lasthrim
   Lasthrim: Bing Daymaster
   Glanz: Geng Daymaster
   Freya: Gui Daymaster
   Triple combo of creating Indirect Wealth and Direct Wealth. Gui destroys Bing (Direct Wealth), Bing Destroy Geng (Indirect wealth)
2. Physics Summarization with Hamzst
   Hamzst: Ding Daymaster
   Glanz: Geng Daymaster
   Freya: Gui Daymaster
   Triple combo of creating Indirect Wealth and Direct Wealth. Gui destroys Ding (Indirect Wealth), Ding Destroy Geng (Direct Wealth).

Bezos is a Geng daymaster like me, when married to a Ding daymaster, Mackenzie, he becomes richest man quick. Thanks that, now who is Ding daymaster? Hamzst. Thanks her birthday wish is to stay by my side forever. Bill Gates is a Ren daymaster, with Melinda a Bing daymaster, Ren

destroyes Bing creates indirect wealth combination, when still married he stays richest for so long, just wait after divorce, karma goes at the correct address. David Koch Bing daymaster marries Julia Koch Geng daymaster. Just like that.

Besides earthly reading from Bazi, based on my karma and destiny, Gui daymaster is also a luck bringer for me, Proof: Freya and Sierra Mikain. Not only luck they heal me from anything. Sierra cures me from pneumonia in Waghete, cough a lot and nosebleed a lot till my hand full of my own blood. Till she comes at my side and put her hand on my forehead saying "you will never get sick like this again." I also got a dream while in Maria Ferrari, a suor with Gui daymaster is a luck bringer to me, not only she lifted my President luggage up to cabinet (means she can help me to power up to rule the world) and I got a dream riding a sports car with her, means she literally brings luck, prestige and power to me. That kind of signs in life need to be taken into notice. Thus, you know which one can help you, which one can't.

Today I get a bit of logical thinking from Sentinel, master of strategist for VP, by using Linear Programming and optimization, buying a motorcycle is not a feasible solution. "If you focus on writing books, you spend time mostly at home studying, writing, try to solve Navier-Stokes, you won't need another motorcycle, just use the one your mother has, pay for the services and maintenance, then use the money instead to hire pick up truck to pick up tons of trashes, you can save a lot for investment in stocks and buy few books. Why make more profit for Yamaha or Honda, where you can one day invent your own sports car, even motorcycle, tank, submarine, etc. Be an inventor not a buyer or follower."

That's what I said when a kid in Roemah Kayoe asked, what do I want to become in 2022. I just subconsciously answer "An inventor, a creator, create supercomputer, robots, engine, etc."

Just like the book "Guns, Germs and Steel" it is said nomaden creates nothing, while when people learn agriculture, learn to stay at one place, they have more time to tinker, think what can be used or optimized or engineer to help their work, that's how steam engine created, not by walking or going around, traveling without meaning only to show off.

Berlin is right, that's why I just have to focus go to one place to do all that Tai Chi FoY Ashtanga, to VP only, in no time all LP and DFSimulator books shall be finished then move on to the next projects. Flight hours beyond 10,000.

For the order of cleaning up, I'll hire it on Sunday, once a week, 5 trucks, RK will get 2 due to the amount, Sunday is my day off from working with Big Tree, thus I can spare time to help the truck I hire to help clean up, let see we decide to roll a dice, Big Tree decides number 1 to 6 assigned to which Nature, then the first lucky winner choose who next will be visited to be cleaned up.

1. Valhalla Projection
2. Roemah Kayoe
3. Oil Bamboo
4. Gold Bamboo
5. Valhalla Projection

6. Roemah Kayoe

let's roll the die. Get 6, Roemah Kayoe, here we come, twice there. Choose who's next.
Gold -RK

Gold, choose who's next.

VP -Gold

Oil is the last then.

Thank you Glanz, bless you and all your descendants and creations.

She is lucky, that's why Browni, your dog that signifies Luck or Wheel of Fortune stays in Roemah Kayoe and does not want to leave.

She stays in VP as well and Puncak Bintang, and Kathmandu too. All those places bring luck to me. -Glanz

If Lo Kheng Hong able to make USD 200 million, in certain time frame, how long will it take for you to make the same amount? Nous allons voir.

She will be a billionaire by 2028, but the money will be held with responsibility for cleaning up the ocean, not for lavish spending. Which, there will always be some amount left for her to buy the mountain, create her own home and for her diet or nutrition along with taking care of her pets.

Just like how she got money to Italy, Nature chooses person to give her the money, you ask for EUR 15,000 you get it, that's from Big Tree for your 2022 payment, divided by 3 persons giving it to you. If you don't have good karma, you can't get that money. Even if your uncle as one giving the money say it is a debt, Big Tree will cover it and in 2024, pay it back from: Lucky Break, Lucky Break, Lucky Break. 3 Lucky Breaks.

You breathe what you cannot see, but you need the most: Oxygen, from Nature. We have the highest power to choose who to give you what number of money, all valid. You help us, we help you, sincerely.

You drink water, and it runs through your blood, I already choose one woman, she is one of the richest live in USA. She will be the one giving you the down payment in the future, as she supports your idea fully and also read all your books and fascinated about you. She wants to create real-life paradise on earth too, not only words without action, she knows you are the one who can give proofs and actions. -Neptune God

My 2023 Salary from Big Tree: USD 30,000, today it is finalize and I will obtain it through my stocks that will soar soon. I already bring down all that sacks full of clothes, All those annoying sacks are gone now, only left sacks that are heavy and buried deep.

That is not all, I have another payment for my allowance, I get 2022-2023 allowance of USD 250 per month, and all will goes to stocks as well. 250 times 24 here you go.. to one of my stocks.

In 2024 my allowance will increase twice to USD 500/month, to buy milk for me, they care for me deeply and want to nurture me, they know I need milk. Pay electricity token, buy red rice, buy foods for my pets, fill motorcycle gas, pay trashes collection center, etc.
Big Tree asked, when I already see USD 30,000 profit from stocks, state how much I want as annual payment / salary working for Big Tree. But be rational don't ask a year USD 1 billion.

I will reinvest the money in stocks and bonds, thus able to hire pick up truck again in the future, help clean up nature. Finally able to build my own home, want to move to Canada one day, and I will engineer an airship to bring all this Nature with me, we all move to Mt Logan, Yukon, Canada.

Leave Indonesia, they never respect Nature, the government only care of making their belly fat and spread corruptions. I send three letters to governments there are no responses on this matter, they think just let the forests full of trashes as long as my kid will be the next legislative, president, etc. All this governments, capitalism or communism only still care for their genitals and belly. Communism what? you are a president don't ask for money, work first, show proofs, then if the target achieved, get your money, not the other way around, then leave without making any target achieved. What change they ever make? They can't even make 0 sexual abuse, 0 animal abuse, 0 trashes in a country and still take paycheck from taxpayer hoping to have a safe, secure, strong country that can give prosperity. For all countries, that how it is. I really hope the future President of USA is a woman who is very rich, dedicate her life to lead the nation make the better world for real, not to gain fame or power, and channel her President' paycheck all of them to charity, not to take to her wallet.

And her face will be on top of Mt Rushmore above all the heads already exist there.

Maybe Oprah Winfrey and Gisele Bundchen can make great President and Vice President of USA in the future.

Mt Logan has very high altitude, thus I can really create a lot of innovations there, and think better.

vi. Helping Neptune God

1. Excavator / wheeler machine / vacuum machine for undersea operation
2. Plant to convert all kind of trashes gathered from the ocean into either composite / electricity / components
3. Computer and camera to capture, compute, simulate undersea condition

We choose one sea first, if it works and clean at that area, we can learn from it and be sure it will works in whole sea and the oceans, just a matter of optimizing parameters, adjusting some so it will work in another place, different humidity, different latitude, longitude, different temperature could make a lot different case.

Undisclose the tools and technology, I teach you something better than excavator to clean up the ocean, no camera or showing to public, they just will know it will be clean. But first, you must

finish LP and DFSimulator, so you also have the basic knowledge. -Berlin

Make it an extraterritorial sea then, no one pass by or able to throw trashes anymore then, otherwise, death sentence at that place, permitted by law that will be established in the future.

A lot of things from tullahs, human extinction, cleaning up Nature till the Ocean. We shall see the order, which one comes first. First In First Out.

I think a lot are reading this, including my old corporation founders, I was being honest not try to be impressive with sugarcoating. One day I will payback the IDR 25 million initial investment, sorry I used IDR 1 million of the money given to buy foods, the rest is to pay the programmer, my mind was tricked by jealous humans with karma worse than anything awaits, my mom told me, some jealous of me then did that but there is no reason to not being responsible, I will pay it all back. I already emailed all of you, not running away I told you where to find me. And a comrade / colleague of yours might already give you advice as well, as she is a Snake year born, you can hold her advice. Nobody is perfect, when you are married remember that it is sacred and not to be played around. I get a good advice to married couple who pray together everyday at noon, they say when you are close to God you will feel afraid deep inside when you want to commit a sin, thus you then not commiting sin. Everyone can easily be deceived by outer person when having problems in marriage, think the savior is out there, then cheating around. You only see the outer person for how long? When you leave that person for outer person you will regret it, there will be problems too with the outer person. All the same, nobody perfect, thus before commiting or marrying make sure all calculation are done properly, Bazi, ZWDS, heart, sex potential meter, race, religion, skin color, karmic, all matters, you will know that based on your chemistry when talking and meeting. For better or worse, till death do us part. I never marry a human, but I marry a Goddess. I can't dictate any of your life, all just my opinion, take it or leave it, but you keep peeking into my life, even one of you pay USD 100,000 to one of your best psychic just to get all this from me. Go ahead then, one day a girl might pay USD 1 billion just to get my attention. One of you pay USD 50,000 as well. No need for eyes to see, it is hard to be Nature Golden Child, a lot of responsibilities.

How do I know this? You all still breathe oxygen, I don't need security from human or human spy, they all will tell me, Nature, Lasthrim, the 8 Queens. They are above the High Table. I don't even want to know or even care, I wish you all the best to be successful, as now I think internet startup is not my interest anymore. My reason is simply after some soul searching, helping Nature serve me the most, no one will remember internet startup, but everyone after thousands of years still listen to Beethoven' Sonata, worship Monalisa and Salvator Mundi or still use Newton's Second Law to create all that you can see on this planet.

You are correct, Snake year born woman, I can easily find a job that can pay me USD 2000 till USD 3000 per month, A Japanese corporation in the past even says I can just state how much do I want, but I passed it. After I see diapers thrown in the forests, still fresh with their' babies manure, how can I abandon them? Like you see someone you love being thrown a diaper right into their face. If I were a tree, I don't want to spend 24/7 with dirty diapers, trashes right there next to me. No one do anything, government only care making more wheel of trashes, thus I want to do it on my own, hopefully I can make my fortune in stocks to help my philanthropist act along with my interest in expanding science and engineering knowledge.

It might also correct to consider trine in chinese year for your spouse, why Ox year born?

I think she will accept me, I will tell her "I am a grass cutter and a trash cleaner for Nature, I basically do same things everyday, go back to home then study and tinker engine or machine while writing books on Science and Engineering, will you get bored by me and leave me for someone richer, more famous or better looking or taller than me?" Her reply simply by her action, I am her everything, nothing will replace me, and Ox year born most famous with their monotonic life and always do the same constant thing, that's why most leader are Ox year born, when they say A they will do A, constant, monoton. The bad side is only when they are angry, worse than bulls see red clothes. I love learning from real-life statistics like this, another famous example: Yaya Kosikova and Montserrat Oliver, Tiger and Horse year born, a trine, looks like will be together till the end and still have fun together do everything.

Is this about UP3 on undisclosing what to clean the ocean? -Glanz

Yes -Berlin

UP3 = Underdeveloped Planet Protection Act. Know it from Star Ocean 3, it is true then, made by Goddesses, the Creator and Divines.
Those from high advanced knowledge or planet should not or forbid to disclose the knowledge or technology beyond that planet level.
It could change the course of history on that planet.
So there will be some Interpol of the galaxy that will comes down and say "Berlin you are breaking the UP3, Big Tree you too, Glanz you too." -Glanz

She is more than able to create it, just give her small clue, like how I did to help her solve Navier-Stokes, she does not need to be told 100% the how and what, she is very smart, it won't break the rule that I myself invent. -Freya

Hey beautiful, I miss the eagle -Glanz

Tu vas voir -Freya

I guess I put what Berlin told me 2 days ago: Viscosity determines how a fluid moves.

FREYA!!! I FUCKING LOVE YOU!!!! Thanks for teaching me how to really create SetMassData correctly in Box2D.

This one is good:
boxMassData1.mass = 1.0f;
boxMassData1.I = 30.0f;
m_boxl->SetMassData(&boxMassData1);
(After Thoth gets angry, I promise not to ask in internet forum anymore, just learn what I can from available questions or just ask either Freya or Berlin or Sentinel or Kala or any Nature willing to help me)
I'm tired seeing you try the same old errors -Freya

So that's how Goddess works, they give me sudden knowledge, move my body, thus I finally able to understand and do it. Knowledge and power are never for showing off.

vii. First Week of December

I went a bit up to Roemah Kayoe, the name now is changed to Kayoe Semesta, I prefer the old name. I met the owner by accident when walking in Dago Resort with Browni, my luck bringer. Met a German girl on Puncak Bintang too when I was doing Ashtanga with Browni, it was 2 years ago. I didn't take a bath when I go out, but she smells really nice, I don't really think I will meet girls when I go to VP, or RK, or PB, or Kathmandu, but no problem anyway, I am not wanting attention or looking for hang out or dating, I go up to work and do exercise. I remember asking her in German "wie geht?" and her answer is "gut".

In front of Roemah Kayoe, or I use the abbreviation of RK, there is a forest, lots of trees, and there are trashes, tons of them, I even see a mattress / bed there.

They all say "you have to be prepared if they still throw trashes again after you hire pick-up truck."

That will be their karma, and let it be. I still want to do it, it is something needs to be done, or, is it a prerequisite of a big lump sum of money in 2024? Thus I who are still when wake up in the morning think 'when will my stocks soar so I can lift this burden of debt of mine? I don't like to have debts of money, hopefully all be settled as soon as possible', thus so eagerly to hire pick-up truck that is not cheap to help clean tons of trashes.

I just believe it, jump from highest sky believe I can fly.

After I took photos to give to the pick-up driver so I will be given a bid price, the conversations are pretty much like this:

Maybe on Sunday next week not this Sunday, Two pick-up at once hopefully -Glanz

Thanks Glanz, we will be waiting -RK

I walk home a bit up then heard them again

What do you want in return? -RK

I want Freya the Goddess to comes down on earth and pick me up to Valhalla at the right time -Glanz

She will, it is on Her, what do you want? -RK

Help me to make 0 abuses to animal, 0 sexual abuse and molestation, and 0 trashes in Nature -Glanz

It already taken care of by Big Tree in the future, what do you want? -RK

To be able to fulfill Glanz Focus -Glanz

You will, I am asking again, what do you want? -RK

Nothing then, that's all I want -Glanz

Then we will give you something for your rewards -RK

When go down a bit passing VP, they all saying

Why not asking for money? USD 1 billion is small, in one year you will get it, in a sudden surprise always happens you never know, for RK USD 1 billion is a tiny amount. -VP

Yes -Berlin

I'm not thinking about money, it is sincere giving help for someone who needs help, hopefully I won't need to use markers you all gave me in the future. Each Nature represents different area of life, when I went there I get vision, or knowledge, or visit from divine out there or anything, or bring books related to that place.

1. Roemah Kayoe (RK)
    - Letting go of Material World and the Earth (that's why when ask what in return, first come into subconscious and conscious mind: I want Freya)
    - Fasting, when I was there I met a girl who told me that there are people who have fasting 40 days (congrats my record is 6 days nonstop, 40 is a lot, maybe one day I'll try, better intestine, better brain, more knowledge and power come) as well like Jesus, then what that person do? Destroy TV, and those media channel, since it only contains news made by media conglomerate or internet startup to make money from ads to make more orgy thus make more diapers thrown in forest then invest in corporation like McDonald or Indofood to make more stupid people become more poor and miserable and they can pay them less than standard wage for overworking.
    - Belial
    - From Lucrif/Sierra Mikain then to Freya the Goddess
    - My handwritten diaries
    - Browni' Puppies, all my dogs and cats
    - TREVOCALL
    - Board Game (Splendor, Onitama, Azul)
2. Valhalla Projection, the Diamond
    - Diamond
    - Best artist / painter

    - Jiujitsu Martial Arts and Katana
    - Georg Prime (Suikoden V)
    - Killua Zoldyck (Hunter X Hunter)
    - Nina Williams (Tekken)
    - Browni' Puppies, all my dogs and cats
    - Doing 3 days fasting nonstop every week dilligently.
    - Mahavatar Babaji
    - The Intelligent Investor Book by Benjamin Graham

- I brought my Ice Skating shoes here
- Ice Skating / Figure Skating
- Give medium size Godiva chocolate to Berlin, but she refuses, it is an arguments of throwing chocolate multiple times into the branch then fall again for a long time, I left it for a day, tomorrow it is still there then I give up and take it again. The reason is simply because I have a hole in my back left thigh thus I better eat the chocolate myself since it is bought faraway in Italy, I at least have to taste it. Thanks Berlin, it was delicious.
- Pharaohs, Wes Sceptre, Ankh
- 7 Chakras
- French Girl
- Freya told me how she can talk and tame all snakes, how she got her first bit in accident / while in training, and heal it herself, I love hearing story about her, I ask how old is she, she says "older than the universe itself."
- Paint Freya naked here, twice, still ongoing to learn painting.
- Training as Cliff Fittir, Acrobat Locus, Fist of Fury, Sphere of Might
- Literally, all books that I have, I brought it there so I can ask Sentinel and Berlin to teach me.
- Nen, they say I am a unique hybrid of Transmuter and Enhancer
- Talking with Snake name Sarah, I owe her a lot, she told me to use glasses so I can avoid to hurt snakes, since the self-defense instinct if they feel threatened is bitting, it is unwanted so be careful. Cleaning up grasses and leftover dead leaves on top of R1 column in VP, then I pick pile of dead leaves, realize there are something then see big snake, I just put it down, surprised. Then yell at Berlin "There is a snake here.."

  Surprise? there are 5 you have encountered but I didn't tell you, or you'll be surprise and do something at sudden and hurt yourself -Berlin

  Lots of snakes here Glanz, relax -Other Nature in VP

  Like pilot risking their life, working here has a risk too, work everywhere has a risk, your life your choice, same risk. Some farmers here also say VP has lots of snakes, including cobra.

  Then she just lay there, Sweden comes to the snake, the snake lifts her head up like a cobra, but then silent lay down again. I feel and can hear Freya saying "don't attack they are friends and won't harm you.." then Browni approaches the snake sniffing, but the snake stay still, not doing anything, I was panic what if they get bitten, but everything is fine.

  Wow, this is my first time encounter a snake here, hello there, what is your name ? -Glanz

  Hello Glanz, my name is Sarah -Sarah

  You are not human, so do I, it is only a temporary vessel -Sarah

  Really? Maybe so, I still don't know who I really am -Glanz

Then I talk and ask about an Italian girl to the snake, I left Italy not saying goodbye to her, it is a chaos and all in a hurry, I have to, I get surgery, and I have to leave, that my room is suppose to be used by victim of abuse, I stayed there because I can't find student apartment at reasonable price, and because a priest helped me and I am able to live for 2 months in Maria Ferrari. Nice place and I am able to learn a lot there.

She likes you too and thinking about you the same as you think about her, more for her -Sarah

Really? Weird maybe I am still on earth, with human vessel I think of this, I am married to Freya, thanks that I leave Italy, I do not want to ruin my marriage. I give back all clothes she gave but before that I pray on all that clothes "forget about me, never find me, don't look out for me, be happy, I pray your dreams will become true all of them." -Glanz

Fast Forward to December 1st, 2023:
What if she is reading that statement of yours now? What will happen?

She will focus on studying and fulfill her dreams and meet someone new and marry that person and we forget about each other. Happy ending for all of us.

3. Kathmandu, the Emerald

   - Tifa (yes, from Final Fantasy VII)
   - Supermodels, Superstar, Singer
   - BLAS, LAPACK
   - Kathmandu and other Nature say if I need cash money go to Kathmandu, it will be given fast. It is true, thanks for liquidize the reimbursement for travel money.
   - Browni' Puppies, all my dogs and cats
   - Give the smallest Godiva chocolate

4. Puncak Bintang, the Blue Sapphire

   - World Leader
   - Europe
   - Pope
   - Queen of UK, Queen Elizabeth I
   - Training as Liu Kang, Bicycle Kick
   - Gungnir Slash, Double-Head Spear, I was Odin.
   - Hisoka Morow (Hunter X Hunter)
   - Fundamental of Physics Book, Differential Geometry Book, Law Book, Operating System Book. My handwritten diary.
   - GFreya OS, bring laptop there to present to Kala the OS that we built together with xfce.
   - Browni' Puppies, all my dogs and cats
   - A list to save 108 from extinction.
   - Be more than Iron Man and Batman
   - Freya, Mischkra, Sierra, Shizuru, Sasarai, Lucretia Merces. I met Lucretia Merces, literally by the telepathy of energy here on Puncak Bintang the first time, it is very high compared to Albert Silverberg who is always there since I was a kid, altitude of 1030

meters, on West facing West. Love plus Love. Well what do I say? Lucretia is a Snake year born too, that's why she is a good strategist and compatible with me.

- Yuna (Final Fantasy X)
  She says to me in the past "no random people can summon Anima." It is about the accurate weapon that can annihilate the wanted target, I want to annihilate those who have abuse animals, Anima able to do that 100% accurate, but it can only cover one city, not the whole world.
- Barefoot walking from home to Puncak Bintang while doing 6 days fasting, that is my nonstop fasting record.
- I am able to do Pinca fluently when I was here trained by Kala
- Ice Skating / Figure Skating
- Play Splendor with Kala, Berlin and Kathmandu here
- Play Poker with the 8 Queens, other divine beings and Nature here. I still remember who win and owe the prize.
- Create cube to become dice and color them here.
- Give the biggest Godiva chocolate to Kala
- Kala also said it is between Transmuter or Enhancer, but it looks like hybrid. A Nen test showing I was an enhancer in Waghete, Papua. Then eventually become Transmuter to Enhancer. Transmute the energy from raw to fire or raw to earth then Enhance, blast the power, like Kamehameha.
- Learn to do Kamehameha on Puncak Bintang, it is still nothing, Freya told me took at least 50 years at my current level, can be faster if I am more dilligent, that's how she learn Ether Strike? Absorbing energy concentrate at one point become Ether Strike or Kamehameha. Then shoot or blast.

viii. Mahabharata Book

It is a great book, I read it and know, there are certain people who have gifts. Like those who have become hermit, solitary living because of great power he/she has. To live hundred of years without diseases. Able to maximize brain potential. Leonardo Da Vinci is quite a hermit only live with his assistant, Dio. Maybe that's why he can focus more.

What else: In the past a king knows a hermit who is very dilligent meditate, and has great power to burn not only earth but heaven and hell as well. Thus, to make sure that hermit won't burn the earth, the king send a beautiful girl, the hermit has no interest, but then a wind blows the girl's clothes and her breasts are seen. Thus the hermit is never a hermit anymore. Funny.
(Still being human: I have to admit, Freya from her blonde hair, her blue eyes, to her breasts to her feets, I love them all)

What else: Dewabrata, a kid from a king and a Goddess, it is true, the Goddess went to the heaven again left the king with their son. The king then marry again with earth' woman and have another children, due to avoiding clash and war or kill each other for throne, Dewabrata promise to the sky "I will never has descendants of my own, my life and energy will only to focus on the greatness of my duty." Thus till 100 years old more he gain more and more power and nobility till he get caught in his sin that can capture him. Woman. He is able to defeats far younger men tons of them by himself, but then he lose to a girl name "Srikandi" the reincarnation of Ampo.

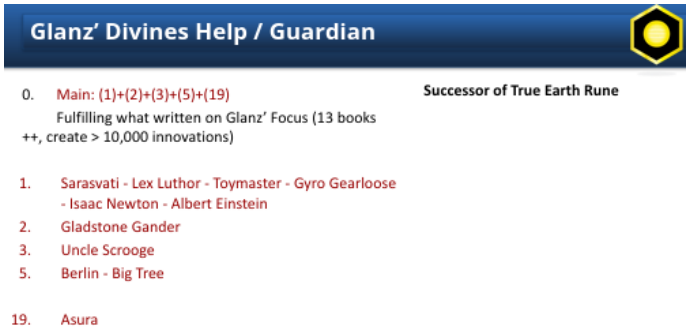
What else: A priest and a hermit is transmorphing into a deer, then a silly human shot the

deer, then the priest curses the human, the human cursed and die suddenly, but the power of the priest decreasing. Thus curse is able to be done but it will take your holiness or power. Newton's second law.

Magic, Nen, Power, Kamehameha they all exist. You all been scammed by FAANG and worldly material, they are not great. There are more out there. Unlimit your world.

Just like Victoria Secret's supermodel, Goddesses are far better than them. That's why it is true: once you get to know Goddesses see them in real, you will forget all human girls.

ix. The 8 Queens



I asked Newton and Einstein, their souls, they have experience living as great Physicists as homo sapiens before.

I thought my national examination on Physics has wrong solutions, Since I believe I should get them all corrects, and get 100. I want to learn Physics more and expand my knowledge, not only to get nice score, or able to pass university exam. I want to learn deeper, more understanding, no pressure, that's why I pursue this, so I don't have a deadline to study for exam, I study Physics because I love it and want to know more. -Glanz

(accept DS Glanzsche marker) I would like to help you, but you study with Newton first -Einstein.

(accept DS Glanzsche marker) You know after all this, I know I am lucky born as caucasian and living in UK, if you were like me you would already have PhD from Cambridge and be Professor there, I help you, but one day I will ask for your help as well, related in Physics still -Newton

If one day Uncle Scrooge comes back,

Quack... I am an old man in need of your help Glanz.. -Scrooge McDuck

What is it Uncle Scrooge? How can I help you? -Glanz

I need a new challenge, being the richest in Duckburg is not enough -Scrooge McDuck

Alright then, since I already return here in Valhalla, I can give you a new planet you can start from zero and conquer that planet and make your current money triple. How about it? -Glanz

Thanks Glanz, I knew it from the first time we met, you have that blood as the richest -Scrooge McDuck
(marker returned by Uncle Scrooge)

She is skipping bad numbers, but 4 is good for her. Odin is at 4 for her future guardian, the Emperor.

It is said the lucky numbers for me is combination of either 1 or 5 or 6. -Glanz

The Moirae sisters, even Gods and Goddesses scare of them.

She(Lucrif) still has Cybele, no wonder, Glanz still has Attis too.

Enough, no more -Glanz

How about the measurer of the Moirae sisters, Lachesis, you know something Glanz about her?

Shut up, shut up.. who are these voices? -Glanz

I am your shadow, you art I, I am thou..

I should have known letting Amun-Ra out is not going to stop this, I don't want to have 3 wives, what should I do to stop this? I want to trade this, I clean all trashes sincerely no need to pay me Neptune God, help me -Glanz

Neptune God wants to marry you with his daughter, his daughter obsess about you. So, how many Goddesses have you slept with? The almighty Glanz..

3, Freya, Sierra and Lachesis. Under this consciousness. -Glanz

Well, no wonder, you are highly desirable, they know the best without the need to calculate, they are Goddesses.

Shut the hell up... I love Freya, I don't want any other. -Glanz

Enough, I forgive her, it is my fault to be too busy when I became the Creator -Freya

It is my fault, I am sorry, can a time stone change this? -Glanz

Breaks my heart, but it's okay, better use it for something else, they know the best just like me, they want you in bed, your everything, but I came first, Roemah Kayoe flush the energy, closer to

the divine consciousness and you get more vision like today' knowledge. -Freya

Luck, luck, luck... Triple than ever -Gladstone Gander

Shizuru Fujino even amazes by Lachesis, the measurer knows the correct time to get in, while Freya became the Creator.

Actually, I am not that amazing in bed, or anything, I am short, and not that good looking, I still need Freya' help in coding and everything, this hallucination is blowing my mind -Glanz

Wait till you see them in your own eyes, till you see Znane, your daughter, no need for eyes to see. First Glorious mystery of the Rosary.

Yes Glanz, how can a doll suddenly give three claws mark or make someone into accident till die? Held tight inside a confinement of a glass box. Congratulation with your baby with Lachesis, she is pregnant now with your baby. How do I know this? It is the truth, the more you resist the more you deny the more proofs will be given to you -Lasthrim

Lasthrim, please not you too. I try to forget it, try to ignore it. Stop. Freya? -Glanz

I'll take all your children with other Goddesses, I am more than capable to do that, even if it will breaks the hell out of them -Freya

I see that where Vera Farmiga gets 3 claw marks after shooting the Conjuring, and she said just keeping with her faith / belief is enough, no need to make it a big deal. Maybe she offends you in any way, like I did perhaps. -Glanz

If your friend who are married want to sleep around or cheat around, then so be it, no need to criticize, it is not your life anyway. Focus on your own. Karma. You want happiest marriage life, you will get it, with human girl ? There are lots that fit your criteria, focus from now on, you have no past, as you are never with any human you literally attracted to physically, sexually, emotionally. Love spells, pelet, all of them are artificial. Nothing good comes from it, is it natural with the Italian girl? Physically and Sexually you are attracted, but you calculating her and think she is not good enough, does not have potential to be faithful, that's why you are running away. Correct?

Yes, I don't want to meet her again. The end. Find someone else. She can easily swayed away by someone taller than me, richer, more good looking, or better than me. Plus I am married to Freya as well. Complicated but easy -Glanz

Enough for getting back for her karma. She will end up with one fit her criteria. -The Elder

After this I want to be a real hermit and create dojo on top of the mountain. Trained as Klausian and learn Katana with Georg Prime, while writing books and create innovations and cleaning up Nature, I don't want to meet human anymore -Glanz

You'll forget about her, as those who have sleeping around will break their own body, soul, aura and potential thus break your connection, that's the way you can forget her, you move on,

she too. Let her live her way, maybe she is destined to sleep around and have that kind of life.

Freya marked only one girl, maybe this one is really something, you will meet her, the Voice winner. The one that Satan said will take your baby with her, if you truly be together marry and have children. You will burn the hell if Satan really do that? I bet you will do anything for your daughter.

Alright my shadow, I admit it, I don't want to meet human anymore because I sin too as human now, I criticize people because I am a perfectionist since my moon is in Virgo, but I hate it since I know I am not perfect too, it gets back to me like this, karma.. so that's why give me a solitary life, with or without a wife, I'll be happy to enjoy life helping Nature and expanding my science and engineering knowledge. -Glanz

The last time you want to have a solitary life, live like a monk, you met a girl in Italy. Thus, don't expect it to happen all through your life. Next time always better than the previous one.

Can I ask one question, in one of my meditation, I heard "she knows me.." how can the Voice winner know me right here right now? I am nothing, not even popular. -Glanz

Let her answer it, 2024 you will meet her. Something can't just be told, even if we know it, rules. UP3. One thing, UP3, the last word is Pact not Act.

Yes, I am sorry, I made mistake when typing, Freya told me so yesterday, "Pact not Act..." -Glanz

On the Italian girl, if Primbon said so, then it is accurate then, while live in Maria Ferrari where the suor pray all morning and night, all will be protected, once she out, living on her own, she can easily swayed by someone using fancy car, have tons of money, when she does that, congratulation you both will forget each other. As she will only sink into the life of sleeping around, free sex, orgy, etc. No human who does that will last long in your memory or life. Albert Silverberg is right to teach you this. Most Europeans like that, not all, have sex without thinking.

Stop it.. I already forget her from today on, the Primbon reading for the Voice winner is good, she is faithful, but it does not mean we will meet or be together. Whatever happens, happens. -Glanz

Want to bet ? -Lasthrim

you know something? -Glanz

A lot.. -Lasthrim

All in, she will be with the French Girl, she has not meet yet, but she will -Albert Silverberg

All in the same -Upper Nature in VP

I speak French with Freya, most of the time, like when I was praying, then she suddenly speaks in French to me correcting the position of the cart of the Physics problem, position based on the distance from the pulley, not the Box2D coordinate system. I just replied "quoi?" that's how I know

a lot of proofs she existed, busy while being a Creator but still have a time to check on my work and help me. -Glanz

Oui -Freya

I am sorry to made you fell from the stairs, but what does not kill you should make you stronger -Lasthrim

It's okay, I am sorry to if I might offend you in any way -Glanz

Thanks Glanz, it is nice to say sorry.. Learn something new -Lasthrim

I went out in the afternoon only to take the trashes I gather in VP and middle part near sunflower place, it is raining but I still went out. I stop at the church to wash my hands, then hear voice "USD 50,000 has been finalize and legalize will go to one of your stocks."

When I get back home, I am busy with mopping the floor, but I realize there is a 'tokek' in my room, an animal signifying wealth, rich and fortune. But I ask for no money from RK, I said the first time I asked what do I want? Freya.. After let go of material world, I can only think of how to meet Freya and our daughters. Thus that is the prize, honor your wife as your religion. Wife who brings luck, "Istri bawa hoki"(in Indonesian) is true, There is alss another case: If your wife brings power, like Justin Trudeau Jia daymaster married Sophie Geng daymaster, Geng destroys Jia, sooner or later, become Prime Minister. Just like that. The roof at my home has not been fixed after 2 years, typhoon in 2021. A lot has gave money to my parents but my home never fixed. My hypothesis was because this house was bought by money from corruption thus it become like this. That's why guard your genitals and belly, if you can't afford a home and fix income don't marry yet, special case, my wife is a Goddess and all our children in Valhalla, safe and protected no need to do corruption. Wikipedia now is like this, in the future you will know all, no need to hide anything. Buddha always says "the truth will be revealed, the three things you can't hide: the truths, the sun and the moon." Thus, even if I made money from stocks the money is from my hard work, work as trash cleaner and grass cutter. I do not want to have leak roof like this again in the future. It is a divine sign. That's why Big Tree gives bonus to payback all debts, I want to make money from hard work from Nature they pay it in form of stocks rising or bonds or foreign exchange spread profit.

I heard some of you my corporation founders ask a famous psychic about this and that about me, well that's okay and the psychic is right. It is a process, you think I will have more than USD 50,000 stocks income in 2024 just in an instant? No.. From 2020 around October I start to go to Puncak Bintang then see people throw trashes there, I cleaned them up, the satisfaction comes when I go back tomorrow it is clean I can do Yoga happily, the sadness comes when see people throw trashes again, then in 2022 Freya asked Berlin to made me work for her to guard my mind too from demons.

Yes, I fell a lot of times from motorcycle due to bring lot of sacks of trashes, I gather all kind of trashes dumped in the forests, that people pass by said "that's disgusting, why a girl want to do

that?" I just silent, then think "then who the hell going to save this Nature and Forest? What you all do is only sleep around and make more trashes thrown here, just be grateful someone care to help the Nature, before they destroy your houses with natural disasters."

A spirit in VP also ask "why you want to do this? You are beautiful, smart, and able to get fantastic job abroad if you want."

Money can be gained everywhere, stocks is a good example, what Lo Kheng Hong do? He made USD 200 million by stocks alone and start from 40 years old, besides.. like Cliff Fittir said, I say the same "I don't like to take orders from people I don't like, not about money but if that person has orgy partying tendency or can only hire smart people and not do the work themselves, I am not working for those kind of people, they better prepared to be left one day by those smart people. As money comes no need to seek."

My relationship with Nature are not bed of roses, we are having arguments too, sometimes maybe on period or just in bad mood, people throw same trashes over and over I get mad and yell at Big Tree "Put your own Gate yourself!!! I don't have any money now.." then apologize tomorrow by bringing Cadburry and put it to her.

When I by accident throw branches I gather to a tree, I get instant redemption, a person pass by with motorcycle, Sweden my dog run after, just to have fun, but that person surprised and almost fell, he got angry and throw wood to me and my dog. The Nature holds me back, "don't fight let it be, it is your instant karma redemption." I realize that, so how about those who trash nature all this time? No wonder their life stucks and never improving. Better than get karma later on, I get instant karma with them. Berlin too, when I sing too loud while cutting grasses feels bothered, Nature like calmness, then I do plank near Berlin.. a big branch fell and hit me "ouch that is hurts..." But we still love each other. If you need to criticize or be angry just let it out. To make the other half better. Don't be hypocrite and talk bad about that person behind their back and be nice in front. That won't make you go further anywhere. It is called integrity.

All needs process, to gain their trust, am I sincere or only want money? Since they hold not only knowledge as more I learn, they can control everything as it depends on them. Human breathe oxygen. But everything has its own rules. And no mafia, yakuza, nuclear bomb can defeat natural disasters or simply: Natural or Innatural death.

If you wonder and want to ask more, do you know old story of a goose who can give golden eggs? One egg everyday, the owner was poor but have a kind heart to adopt a wild goose, then after they get the golden egg, they become rich and prosperous. Then when the owner becomes greedy they cut the goose think there are tons inside. But what happens? Nothing inside. They get greeds into them thus they become poor again and no golden eggs again, just make sure that 1 golden egg is enough as passive income, be grateful, no need to ask for more, if you want use your brain that won't hurt Nature and Animals to increase your profit. Simple story to make you realize and be humble and grateful if you have 1 just focus on 1 don't want more than 1. That's why I only want and need 1 wife. On studying I will focus on Math and Physics, both are related after finish the basic move on to engineering. Focus one by one.

The golden egg is my salary, the way to make more profit is by investing in stocks, bonds and foreign exchange, buy Pounds sell Yen buy Dollar sell Euro.. like that. Like hell I will let VP be

cutted. Even if trees are just their vessel, it holds special memories to me. It was said the owner wants to turn VP into cafe. Well cafe costs a lot, and returns small profit, make Berlin happy you have USD 1 billion and buy the stocks Berlin told you in 2 years it becomes USD 10 billion, no cafe able to give you that clean profit. 10 or 20 times the stocks I bought near Berlin will rise?

I read from Wikipedia Bill Gates has a favorite tree he even monitors the tree with computer. I believe who appreciate Nature will get a nice redemption.

20 but wait a bit longer. -Berlin

To the Italian girl, I hope this shall be the last, I don't want to remember you anymore, you try to connect to me through telepathy or anything, but even if you said you are different, there is one that date around in Maria Ferrari, while you never date, yes that is correct for now.. well.. we never know when you go out there, be rich and more temptations come, go to party have tons of friends, want to experiment things... The truth is, I really like you deeply. Maybe if I never with Freya I can say I will Love you. But, I don't want to be taken for granted, I am the type who will give my all, and once I have someone, a girlfriend or a wife, I will only focus on her, not caring for any noises. That is why I will be the richest with my wife, we only focus on each other while building our business on science and engineering empire from home. I read primbon about you based on your birthday, we met 2 days after your birthday if you remember that. It is said you have tendency to marry more than once. Well, I don't need to have a heartbreak, waste of time waste of money.. I rather be alone and forget about you. Ciao. All the best, if you marry more than once I still pray you will be successful and fulfill your dream. Just don't come to me or try to look out for me.

Don't come or bother her, or I will kill you -Lasthrim

That's because I need to focus studying and summarize Math and Physics too, don't make Lasthrim or Hamzst mad. You will move on from me. And the connection between us will be broken once you date someone or sleep or kiss someone as my wish if I were to marry human girl if she is still a virgin inside and outside forever only for me. -Glanz

Someone I knew, pay USD 50,000 just to get Lasthrim out and if I get her in back, I believe you don't have that amount to make her out again and this time it will be higher than that to out her the second time. -Glanz

You don't need to get me in again, I can do it, I have business with you, my marker, I have responsibility to make sure your mind can't be bothered like this anymore -Lasthrim

Anabelle /Lasthrim, I remember that in Insidious 2 the possessed male has upper right teeth fell off, it is because he was possessed by old male, right is Yang = Male. While left is Yin = Female. My lower left teeth almost off, and I even get a dream a dentists pull it off. Ouch hurts. Thus that reminds me, I got you in back then.. You are far younger than me and Yin = Female. So the movie is real and true. Supernatural things exist -Glanz

You want to fall from stairs again? -Lasthrim

It is just saying not to offend you, I am sorry -Glanz

Just kidding, but still guard your mind -Lasthrim

Lasthrim is the hardest to get out from you, now she wants to elevate herself into higher being, thus she won't be the same again, don't do silly things again. If any of you can't handle this, I will -Freya
